Corrosorber® VpCI® Paper Tarnish Inhibiting Packaging Powered by Nano VpCI®

DESCRIPTION

Corrosorber® VpCI® Paper is a tarnish inhibiting packaging paper specifically for precious metals such as silver, gold, and tin. Corrosorber® VpCI® Paper is a unique product; one side of the paper has a special coating that scavenges or seeks out H₂S gas. When a significant amount of H₂S gas has been absorbed by the paper, the paper will change from light green to a darker color. On the other side of Corrosorber® VpCI® Paper is a corrosion inhibitor that will protect precious metals for up to two years or until the opposite side of the paper has significantly darkened. Corrosorber® VpCI® Paper will eliminate the need for coatings and tarnish removers that are often associated with precious metals. With Corrosorber® VpCI® Paper, you can rest assured that your valuable precious metals will have the same appearance as prior to packaging. Corrosorber® VpCI® Paper will in no way affect further processing of the precious metal or affect physical properties such as conductivity or surface resistivity.

PACKAGING & STORAGE

Available in standard and custom sized rolls and sheets.

To ensure best product performance, store in original packaging, indoors, and out of direct sunlight at 40-100 °F (4-38 °C).

Shelf life: 2 years

HIGH PERFORMANCE VpCI® PACKAGING

FEATURES

- Contains hydrogen sulfide scavenger and saturation indicator
- Effective against aggressive environments including humidity, SO₂, H₂S, and galvanic corrosion from dissimilar metals
- Combines protection from tarnish and packaging into one step
- Worker safe: contains no nitrites, phosphates, silicones, chromates, or other heavy metals

APPLICATION

Corrosorber® VpCI® Paper can be used to protect products for storage and shipment in a wide variety of ways. Use Corrosorber® VpCI® Paper for single or multiple item packaging.

- Electrical components, controls, etc.
- Jewelry and other finished goods
- Precious metal shipping container linings
- Silver solder wire

Corrosorber® VpCI® Paper is a multicolored paper. One side is white and the other is green. When packaging, face the white side of the paper toward the metal. The opposite side of the paper, which is green, will then absorb contaminants, thus preventing them from reaching the surface of the metal.

Corrosorber® VpCI® Paper is simple to use. Products should be packaged as soon after cleaning as possible, but completely dried of residual water. Keep Corrosorber® VpCI® Paper as near the surface of the product as is practical, leaving no barrier between the Corrosorber® VpCI® Paper and the metal surface. Wrap the paper around your precious metals and fold the edges of the paper together so there is no free airflow. Corrosorber® VpCI® Paper can also be used as insert strips for recessed areas in large packages, as sheet liners, or as separators between products. The VpCI® coating on the paper will vaporize, reaching all metal surfaces to provide complete corrosion inhibition. Many tarnish inhibitors need to be removed after use, but with Corrosorber® VpCI® Paper there is no removal needed of the inhibitor.

Corrosorber® VpCI® Paper

METALS PROTECTED

- Gold
- Iron alloys
- Brass
- Tin
- Copper
- Silver
- Aluminum alloys

Hydrogen Sulfide Cycling Test Results (122 °F [50 °C]/16 hours, 77 °F [25 °C]/8 hours)

H ₂ S Concentrate	
Sample	Result
Unprotected Silver	Heavy tarnish
Silver Protected with Corrosorber® VpCI® Paper	No visible tarnish

TYPICAL PROPERTIES

	Method	Unit	Corrosorber® VpCI® Paper
Basis Weight	T-410	lbs/3000 ft ² (g/m ²)	40 (60)
Caliper (thickness)	T-411	mils (µm)	3.35 (85)
Tear - MD	T-411	grams	48
Tear - CD	T-411	grams	41
Puncture Resistance	ASTM D3420-45B	grams	195

LIMITED WARRANTY

All statements, technical information and recommendations contained herein are based on tests Cortec® Corporation believes to be reliable, but the accuracy or completeness thereof is not guaranteed.

Cortec® Corporation warrants Cortec® products will be free from defects when shipped to customer. Cortec® Corporation's obligation under this warranty shall be limited to replacement of product that proves to be defective. To obtain replacement product under this warranty, the customer must notify Cortec® Corporation of the claimed defect within six months after shipment of product to customer. All freight charges for replacement products shall be paid by customer.

Cortec® Corporation shall have no liability for any injury, loss or damage arising out of the use of or the inability to use the products.

BEFORE USING, USER SHALL DETERMINE THE SUITABILITY OF THE PRODUCT FOR ITS INTENDED USE, AND USER ASSUMES ALL RISK AND LIABILITY WHATSOEVER IN CONNECTION THEREWITH. No representation or recommendation not contained herein shall have any force or effect unless in a written document signed by an officer of Cortec® Corporation.

THE FOREGOING WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, EXPRESS, IMPLIED OR STATUTORY, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE. IN NO CASE SHALL CORTEC® CORPORATION BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.
