INGREDIENTS

6+6* red elastomers 9°
4 quality nuts

REMEMBER:

REPLACE ELASTOMERS
AFTER EVERY 150 HOURS
ON YOUR E-MTB

PROCEDURE

Put elastomers and close your OCHAIN-E following the provided instructions. Our nuts are soooo good, but squirrels won't eat them! Please use some threadlocker and do not loose them into the woods.

For the highest fulfillment, replace elastomers after 150 hours and offer a full service to your OCHAIN-E after 300 hours on your e-mtb. For more informations, details and videos visit our website.
