POSITIVE  
STEM ATTITUDES

**BOOSTS**  
SOCIAL AND  
EMOTIONAL LEARNING

### The **COVID-19** Slide

Students in grades 3-8 dropped an average of 5-10 percentile points in math from 2019 to 2020.

### Fight Back With **STEM**

65-85% of students in afterschool programs who participated in STEM activities for more than 4 weeks showed an increase in STEM engagement, knowledge, identity and career interest.

Students in afterschool programs who participated in STEM activities for at least one hour per week for more than 4 weeks significantly increased their social and emotional learning and 21st century skills.
