

# Transform Your Classroom with Hands-On STEM

What types of connections do learners make when engaged in hands-on STEM lessons?

## cross-curricular

### Integrate Core Subjects

Combining multiple topics within one STEM activity adds value to content and saves time

### Differentiate Content

STEM extensions make enrichment and accelerated learning simple

## learner to learner

### Inspire Collaboration

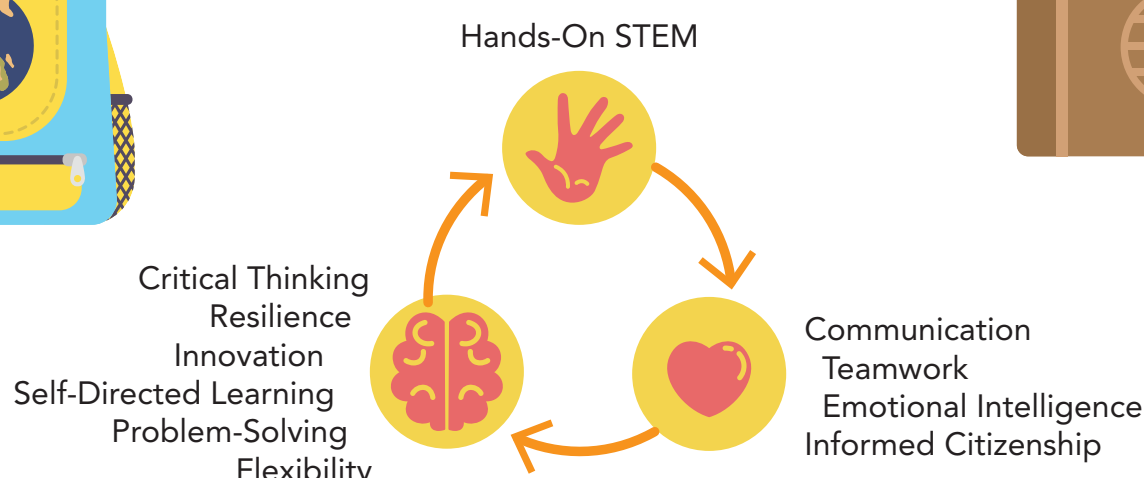

In-depth discussions and teamwork create lasting connections among learners

## classroom to real-world

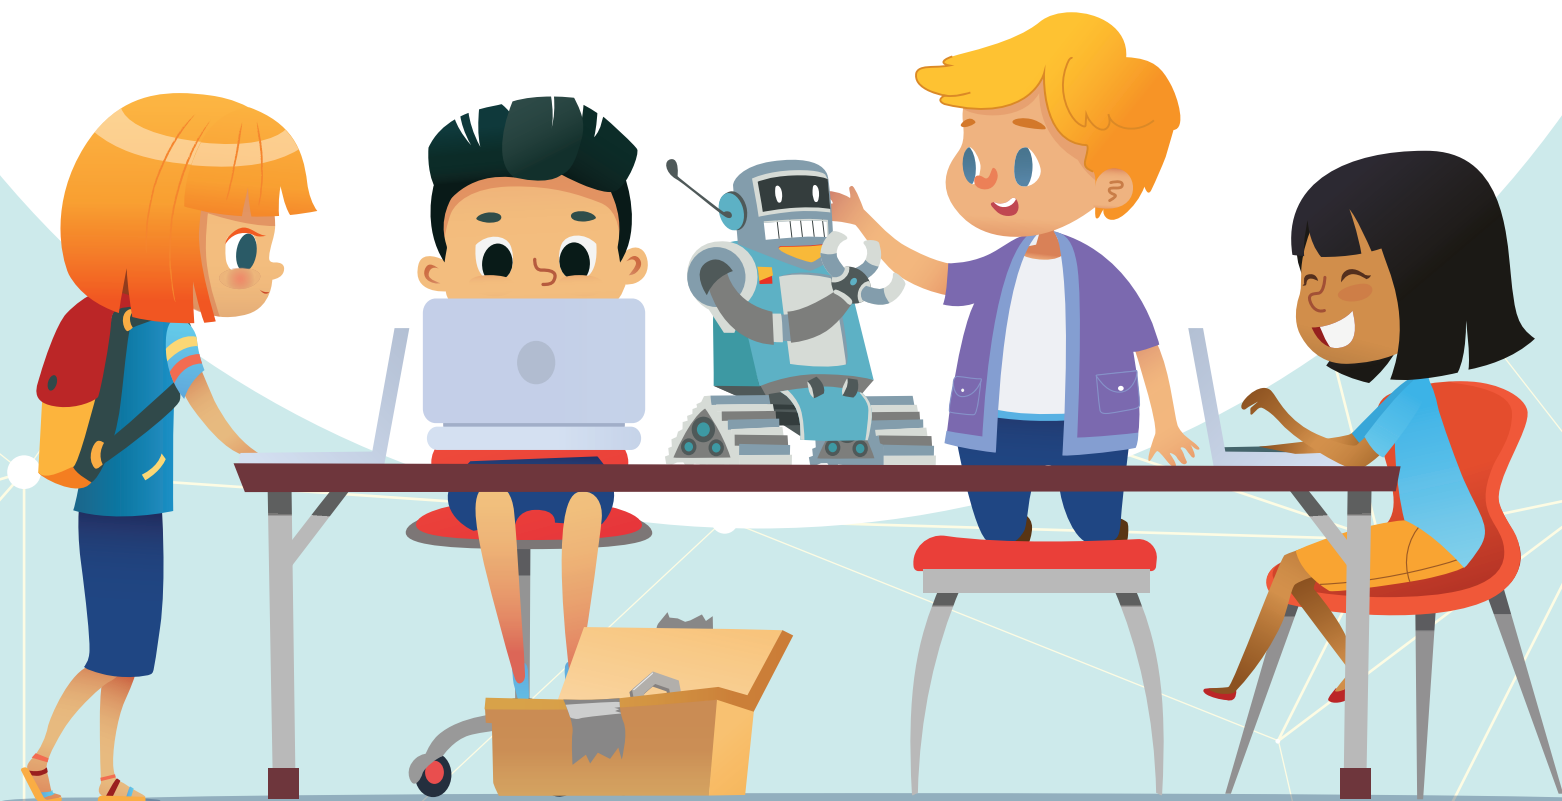

### Strengthen Career-Ready Skills

Hands-on experiences build the foundation for real-world skills

### Embed Technology

Incorporating tech connects learners to the modern world
