

INSTANT MUD MIXING INSTRUCTIONS:

Step-by-Step Instructions For Mixing Your Instant Mud:

Prepare the necessary materials:

Instand Mud Powder

Bucket (with a capacity of 10-12 liters)

Warm water

1. Place the empty bucket in a suitable location where you can comfortably mix the Instant Mud.
2. Fill the bucket with 10 liters of water. Make sure the water is warm but not scalding hot.
3. Pour the Instant Mud Powder into the bucket. It is best to pour the powder in a steady stream while stirring simultaneously.
4. Stir until the powder completely dissolves and there are no clumps.

Your Instant Mud is now ready for use!

Remember to follow any additional instructions or precautions provided with your specific Instant Mud product. Enjoy your Mud experience!

When finished with your Instant Mud product simply thin the Mud out by adding water. You can also add Salt to turn the Mud back into water and then run it down your drain!
