RIMANCHIK items ar Montreal at their in-hous Montreal at their in-house studio. Founded in 2003, to this day the team at **RIMANCHIK** feel passionately about production in Canada, and had this to say about why Canadian-made is so important:

We have seen a huge decline in manufacturing in Canada and with it a loss of expertise and knowledge. However, the local creative impulse is present, dynamic and embodies a great deal of potential. Without any support, all of this talent would be forced to leave.

Love how the Melody bag looks when being carried! Along with my Canadian-made MANDALA DESIGN dress I have paired the RIMANCHIK Ella hip belt. I have worn it up high on my waist, as you can have a lot of fun with the versatility of this style. This Montreal label creates functional fashion that is more like works of art, they fuse edge and femininity while bringing attention to where you want it most - no need for jewellery as their accessories command attention with their pulme design. Along with my Flare cuffy in red. RIMANCHIK unique design! Along with my Flare cuff in red. RIMANCHIK spruces up this dress beautifully in three easy steps! Welcome to Wednesday! Today is all about that popular Welcome to Wednesday! Today is all about that popular color oxblood or you may call it a rich burgundy with hints of deep purple and brown undertones... Bordeaux wine! The list goes on, either way this Fall Winter it is the color to have! On day three of RIMANCHIK week we are looking at the Melody bag in burgundy. I love the details in this bag specifically the cut-out handle and how it is reinforced with black leather. Once again this is an extremely functional bag with SEVERAL pockets, including a riphy extrains process in the form. I have said this including a triple exterior pocket in the front. I have said this many times, but Canadian designers think about the highest wear-a-ability when producing a bag, and RIMANCHIK, truly accomplishes this! Use the strap to carry the Melody bag across your body or remove it to carry it in your hand for a more classic look! ishion, style, MAdeinCanada, outfit

Welcome to Monday January 21st 2013! Today we start another week exploring fashion that is manufactured in Canada. This week we head to Montreal, QC to dive deep into the world of leather accessories. I am thrilled to bring to you the most beautiful and quality made leather accessories from fashion label, RIMANCHIK. Founded in 2003 by a husband and wife duo, this unique brand creates colorful, edgy yet feminine pieces that will adorn your body and further your personal style! Their theme this season was to incorporate texture and layers, using cut-out patterns to create new shapes (like we see above!). They were fascinated by fun colors such as mango, lime and fuchsia!
