## The Ivy & Alex™

World Vision

## Reversible Dress Project

- Let's Turn it Around

This story started with the dreams of a ten-year-old girl named Alex who wanted to turn things around for kids in need. A mother daughter chat sowed the seeds for a joint initiative between FlapJackKids and World Vision.

Together, FlapJackKids Founder Jackie and her daughter Alex designed four A-line reversible dresses in vibrant colours.

Knowing how fast little girls grow, FlapJackKids created a unique frock that literally adapts to your little sprout. Each dress becomes a tunic and then finally a top!

### How Does The Ivy & Alex™ Dress Project Work?

The colour of each IVY & Alex dress represents a specific need identified by World Vision. By choosing a dress, you are also making the decision to join World Vision and FlapJackKids in the fight against poverty and injustice.

IVY stands for 'I Value You' and represents each and every person who will benefit from this initiative. Join with us at FlapJackKids and World Vision in creating a better world for those with less. Together we can "Turn it Around".
