POSITION”

# DESCRIPTION

Are you ready to push the limits of speed? Our revolutionary FlowForce series is the key to unlocking your vehicle's ultimate performance potential.

We've designed every product in this series with a passion for speed and precision. The FlowForce range is designed to perfect your vehicle's aerodynamics and optimise heat management.

Our engineering team has worked tirelessly to ensure that every product in this series helps to make your vehicle more efficient and faster. With FlowForce by your side, you can expect:

 **Aerodynamic masterpieces:** our products are designed to minimise drag and improve airflow around your vehicle, giving you the edge.

 **Heat efficiency:** FlowForce helps optimise temperature control in your vehicle, preventing overheating and keeping your engine's performance at its peak.

 **Speed without compromise:** Achieve unprecedented speeds without compromising on stability. The FlowForce series ensures perfect aerodynamic balance.

 **Easy installation:** Our products are user-friendly so you can pursue your passion right away. Get ready to dominate the track and leave your competition in the dust. With AnimalRacing's FlowForce series, you can immerse yourself in the world of racing - Our seat consoles adapt to your needs!

**BMM E92 Hood Vent**

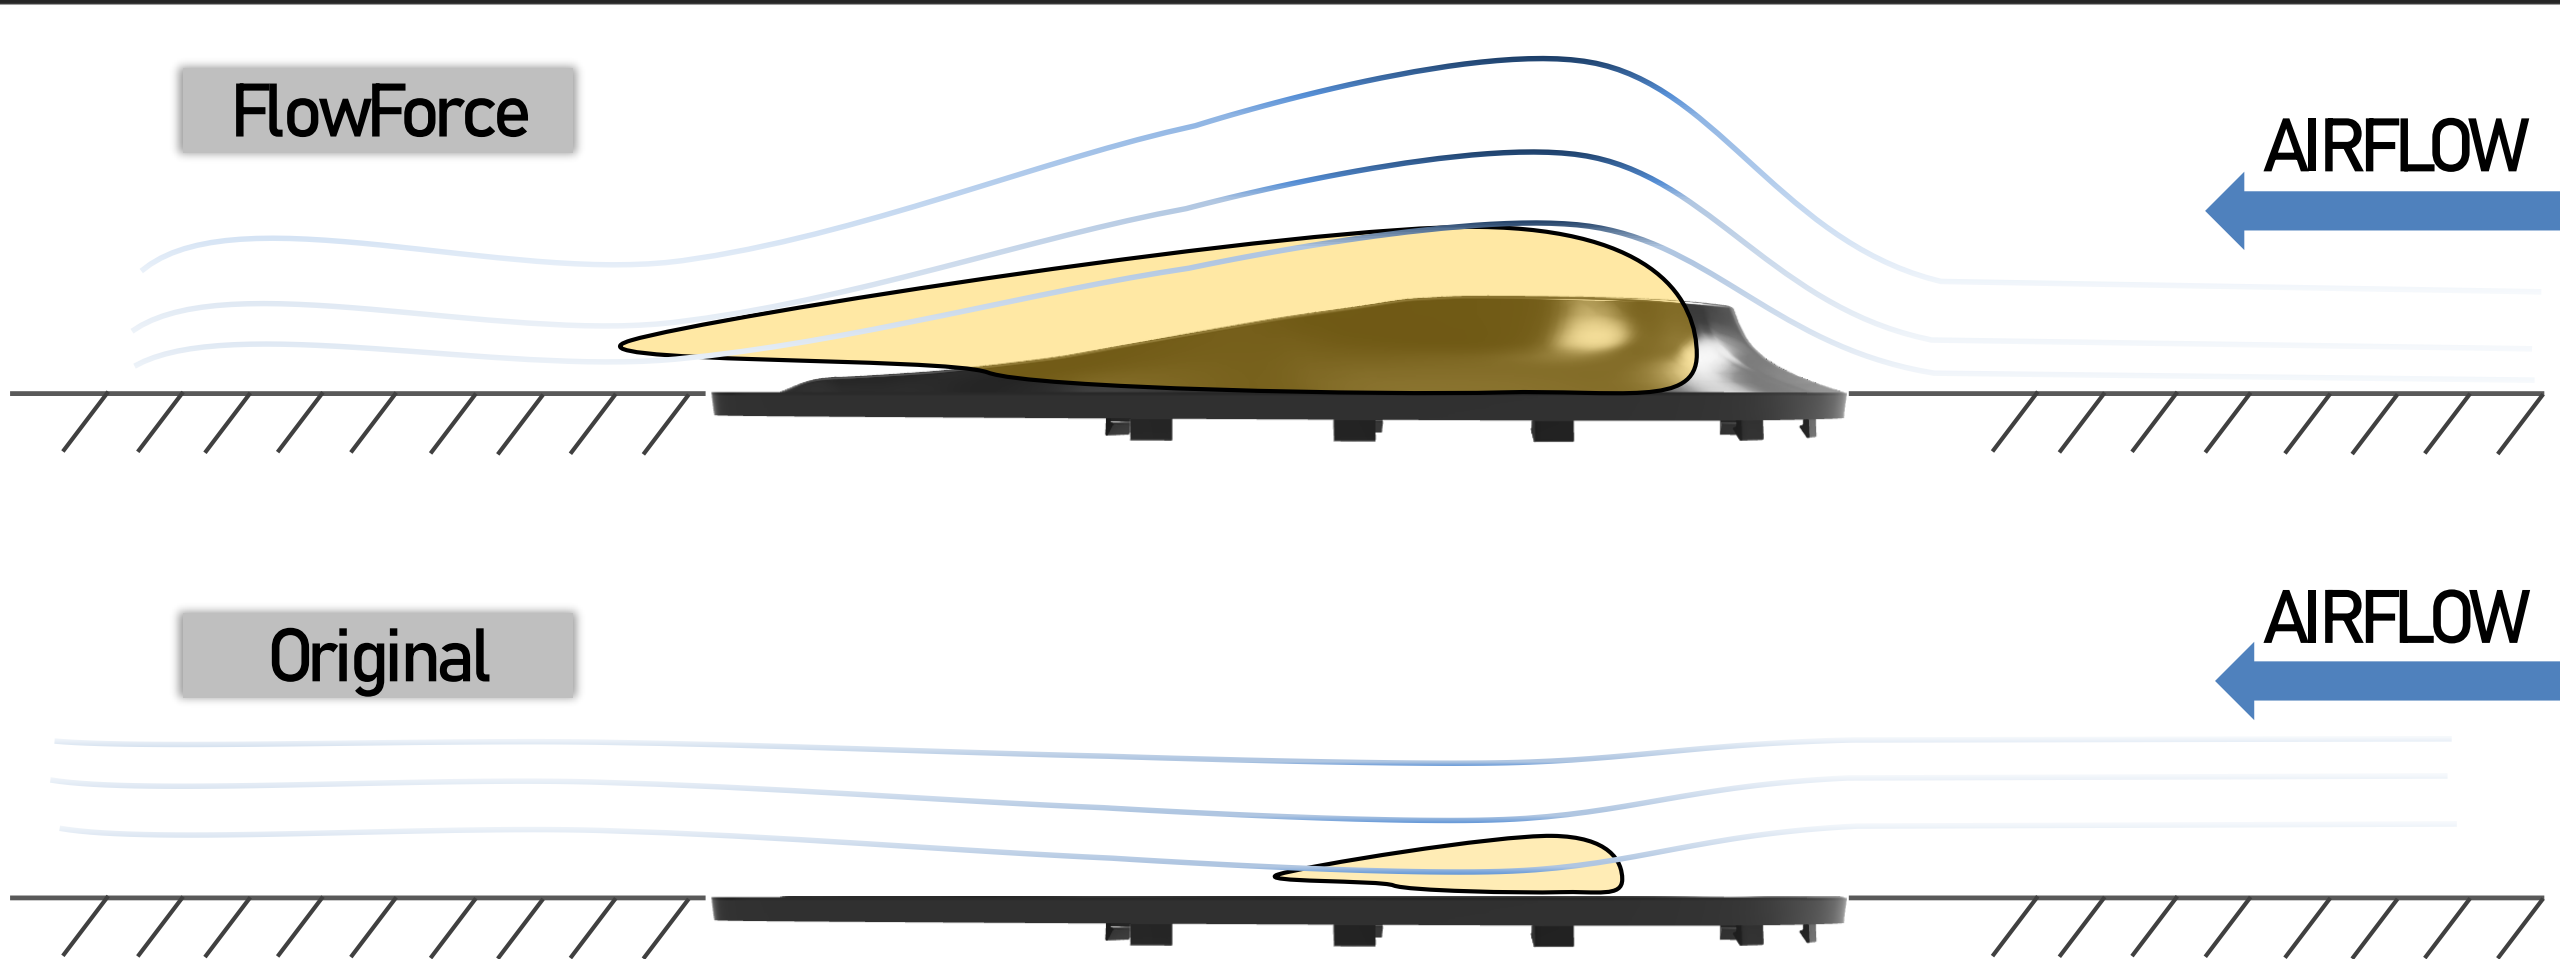

FlowForce

AIRFLOW

Original

AIRFLOW

As you can see here the stronger and larger vacuum zone creates a much higher suction effect from the bonnet!

Note:

- The hood vents can be replaced plug and play with the old one
- For the exchange you first have to unclip the front part of the hoodvent
- Then you can pull out the hood ventz using the two noses on the rear part
- Be careful not to break off the clips
