HZC ULTRA 22T LOG SPLITTER
Model A (Briggs & Stratton 6.5HP)

1 DESCRIPTION

HZC 22T Ultra Log Splitter Model A is a powerful tool for efficiently splitting Australian logs into firewood. It provides 22 tonnes of splitting force and is powered by a Briggs & Stratton 6.5Hp engine, making it compatible and suitable for most Australian hardwoods. The log splitter comes with a ULTRA-LONG hydraulic cylinder and it can accommodate up to 1000mm in log length. It is also designed with 2-Stage pumps allowing for maximum speed at low pressure, automatically reducing to a safe speed when splitting wood. One of the greatest benefits of this product is its machine flexibility - Vertical and Horizontal Operations. An overturning oil cylinder device can be set up to switch the beam vertically and horizontally. The splitting force of vertical operation is much greater than that of horizontal operation.

Furthermore, HZC 22T Ultra Log Splitter Model A is designed with convenience in mind. A flexible hydraulic cylinder can move to operating table and shorten the entire length. It also comes with a rear support leg, and an 8-inch jockey wheel which would enhance the stability and easy maneuverability.

2 SPECIFICS

- Max. Wood Splitting Capacity: **22T**
- Max. Wood Splitting Diameter: **500mm**
- Max. Splitting Length: **1000mm**
- 2-Stage Pump: **8.8/2.1 (10GPM)**
- Cycle Time: **24s**
- Weight: **307kg**
- Shipping Weight: **377kg**
- Package Dimension
 - Length: **2200mm**
 - Width: **1160mm**
 - Height: **1160mm**

3 FEATURES

- Briggs & Stratton 6.5Hp Engine:** Ensures high endurance and power for efficient wood splitting.
- 22 Tonne Splitting Force:** Ideal for handling the toughest Australian hardwoods.
- Ultra-Long Hydraulic Cylinder:** Allows for the splitting of logs up to 1000mm in length.
- Vertical and Horizontal Operation:** Offers flexibility and convenience in different working conditions.
- Flexible Hydraulic Cylinder:** Can reach the operating table, shortening the overall length.
- 2-Year Engine Warranty and 2-Year Machine Warranty:** Ensures machine and service quality

8 SPLITTING HOURS NON-STOP
