

Linetox inj.

Clostridium Botulinum Toxin Type A

Linetox inj.

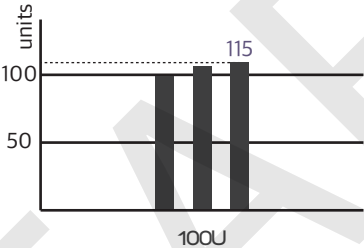

Clostridium Botulinum Toxin Type A

Classification	Medicine
Active Ingredients	Clostridium Botulinum Toxin Type A
Appearance	A white or pale yellow dried product in a colorless, transparent vial that, when dissolved in physiological saline, is a clear and transparent solution.
Dosage	100 units
Assay (Activity test)	87~115%
Molecular weight	900kDa
pH	6.0±0.5
Storage	2~8℃
Expiration	36 months from date of manufacture

ACTMITY TEST

Linetox inj. keeps stabilized potency of each vial by its own strict quality control system.

Specifications	MFDS	Linetox inj.
Linetox inj. 100U	80 - 125	90 - 115

HIGH PURITY

Linetox inj. is botulinum toxin with high purity.

Purity Test

Product Name : WIZTOX inj. 100Units
(Clostridium Botulinum Toxin Type A)(for export)

Lot No. : WT21013

Manufacturing Date : Jan, 18, 2021

Expiry Date : Jan, 17, 2024

제조번호

원액 순도시험 기준

시험결과

1) SEC-HPLC:

클로스트리디움 보툴리눔 독소 A형 복합체는 99.98%

총 시료 중 독소단백질 ≥ 95.00 %

2) UV-Nucleic acid:

OD260/278nm ≤ 0.6

0.50

WT21003

**Purity by Size Exclusion Chromatography High Performance Liquid Chromatography(SEC-HPLC)

Using Size Exclusion Chromatography High performance liquid chromatography(SEC-HPLC), undiluted toxin complex solution was analyzed which resulted in purity of over 99%.

Linetox inj.

Clostridium Botulinum Toxin **Type A**

- **HIGH PURITY**

Linetox inj. has purity of 99%

- **EFFICACY**

Linetox inj. is strictly controlled for safety and high & stable potency

- **POTENCY & STABILITY**

MADE IN KOREA
