

Instantly sit or stand to work, enables people to reduce sedentary behaviour and modern day diseases.

Light weight, strong and one of the most affordable converters available, needs no fixing to table and is truly portable.

A retractable keyboard tray keeps your keyboard and mouse at the ideal ergonomic height.

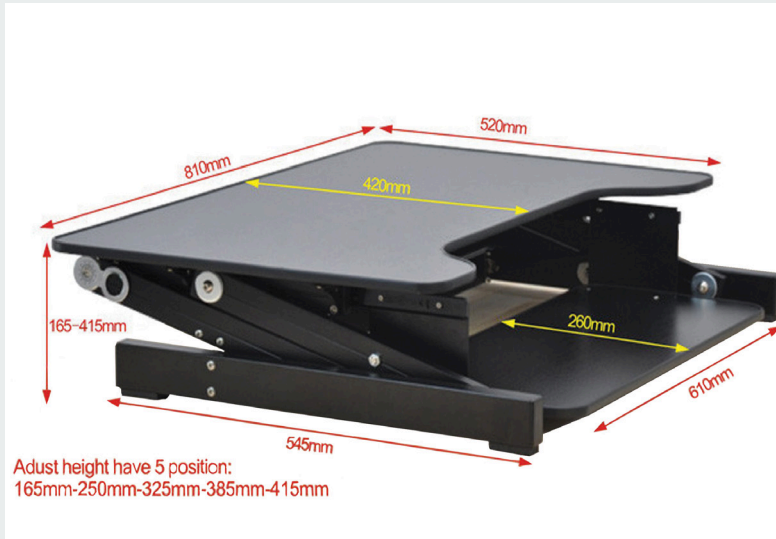

Touch Standing Desk Converter

TOUCH STANDING DESK CONVERTER

About Product

Rest on top of your existing desk and when fully retracted behave more or less the same as your existing sitting desk. Using the Dial lock and unlock (model RT) or all new and improved hand levers, the Standing Desk can adjust from a sitting to a standing position in seconds, making it an easy and convenient solution to improving your health while working. Simply release and lift the hand levers on either side of the unit to raise and lower the desk (for model RTP) or unlock dial lock (model RT). Ideal for use at the office or in the home, the adjustable monitor stand is perfect for workstations with limited space. The large surface area on the top platform allows for two monitors, while the spacious lower platform is ideal for both a keyboard and mouse.

"Squeeze Hand lever to adjust desk in model "RTP"
