

# LCD TV Stand for Touch Screen

# Rkt01

Tilting mount for angling TV

The most flexible and multifunctional TV stand. the product is optimized for touch screen applications. Any touch screen O/S gives it a built in touch screen functionality and an additional dimension.

As a table the tv stand can be used as a presentation or sketch board (needs a compatible LCD/ LED Touch Screen TV's and suitable software).

Our tv Stand 110 Tilt and Table has a versatile usage area. Mainly made out of light weight aluminum it is both heavy duty, light weight and will support most ideas and environments it is placed in.

When developed much emphasize has been put into the stability and overall quality of the tv stand, both when in place, but also when in movement. A sophisticated tv stand base with wheels are included to make it easy to move around. This means the product is very easy to move around, even when a screen is installed. Making this a perfect partner for use in public environments such as conference rooms, class rooms or hospitals.
