# GoSun Grill

## Description

A complete redesign of the modern Grill, the GoSun Grill is a party pleaser, roasting healthy meals for eight in as little as an hour using only the Sun. Cooking more than just meat, the Grill roasts juicy vegetables, bakes delicious breads, and stews hearty soups, making it the perfect compliment to your normal backyard grill. Plus, it's completely soot-free and requires no fuel, meaning you can cook anywhere the Sun shines.

When there's no Sun available, the GoSun Grill integrates with the soon to be released eGrill Accessory, giving it the ability to cook with electricity 8x more efficiently than a typical electric oven. The eGrill's power consumption is so minimal, it can be powered by battery as well as an AC wall outlet, making the eGrill a perfect solution for low energy and off-grid living.

With no installation or maintenance fees, GoSun is making green energy affordable and practical, providing hot, delicious meals from day one.

## Benefits

**Versatile:** Roast, bake or steam

**Clean:** No soot or ash to clean

**No Monitoring:** Mild cooking temperatures mean you can set and go

**Delicious:** Cooks evenly, retaining your food's moisture + nutrition

**Goes Anywhere:** Deck, boat, park or beach, just fold and go

**Cooks At Night:** Using eGrill Accessory available late 2017
