

PORTABLE POWER FOR THE PEOPLE

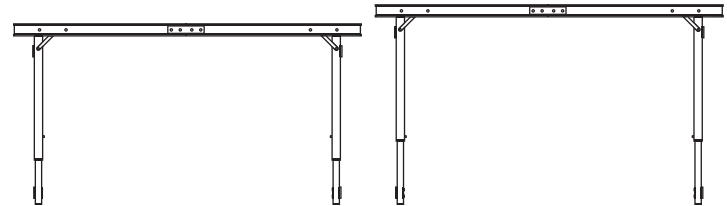

USER'S GUIDE

PORTABLE, MULTI-FUNCTIONAL
SOLAR TABLE

Setup:

1. Remove SolarTable from packaging
2. Unlock the latches on either side of the handles
3. Unfold the Table's top surface
4. Secure the two side latches near the hinges, locking the Table top in its open position
5. Hinge the legs out from underneath the Table surface
6. Lock the legs open by pressing each leg's corner brace into its straight position
7. Set the table right-side up onto its legs
8. Slide the legs up away from the Table surface, until the ball detentes pop into place.
9. If you want to adjust the Table to the taller setting, press the ball detentes in fully, then slide the legs until the detentes pop through the second set of holes.

Height Setting 1

Height Setting 2

Charging the PowerBank:

To charge the PowerBank, first locate the DC cord on the underside of the Table. Plug it into the PowerBank and then place the Table in the Sun to charge!

Solar Specifications:

60W at STC	
3.94 A	Isc
3.52 A	Imp
21 V	Voc
17 V	Vmp
