

GO MOBILE - BE PRODUCTIVE

SETTING UP THE JORNO STAND

1. Lay case flat and fold flap over to meet plastic foot. Magnets will lock case into place.
2. Pull foot out if you want to lower the viewing angle for your phone or tablet. (optional)

TURNING JORNO ON AND OFF

1. To turn Jorno on, simply unfold the keyboard.
2. To turn Jorno off, fold the keyboard closed.

PAIRING YOUR DEVICE WITH JORNO

1. On Jorno, press the 'Fn' and 'C' keys simultaneously to enter pairing mode. The bluetooth indicator light will begin to blink.
2. On your phone or tablet, go to 'Settings'. Make sure bluetooth on your device is turned on. Your device will automatically find Jorno. Select 'Jorno keyboard' and your device will pair with Jorno.
3. Tell Jorno what kind of device you are using by pressing 'Fn' and 'Q', 'W', or 'E' simultaneously. 'Q' indicates an Android device, 'W' indicates a Windows device, and 'E' indicates an iOS device.

USING SLEEP MODE WITH JORNO

1. Jorno will enter sleep mode automatically after 2 minutes of inactivity.
2. To wake up Jorno, tap the Enter key and wait 2 seconds.

CHARGING JORNO

1. As you unfold Jorno, the battery status light will show green (fully charged) or red (low battery).
2. If the battery status light is red, plug the included charging cable into Jorno's micro USB charging port and connect it to a USB charger or laptop USB port. Charge until the battery status light goes off.
