

# DR-1

## 4' LED Bar with 2x Spectrum Channels (Full Spectrum + Deep Red) for Model One System

4' LED Bar with 2x Spectrum Channels (Full Spectrum + Deep Red) for Model One System, the DR-1, is a standard 4' LED light bar that features full spectrum and deep red spectrum channels. It can be connected to a TrolMaster controller, allowing growers to select from a range of spectrum recipes for different crops and growth stages. This flexibility can be achieved through the on-board dimming knob or compatible controllers.

## Specifications

DR-1

### PPF

PPF >243  $\mu\text{mol/s}$

### Input Power

Input Power 90W

### Mounting Height

Height >6" (15.2cm) Above Canopy

### Lifetime

Lifetime L90:> 54,000 hrs

### IP Water Resistance

IP IP56

### Warranty

Warranty 5 Years Standard Warranty

### Working Environments

Temperature 32-104°F (0-40°C)

Humidity 5~95%RH

### Dimensions/Weight

Size 45.35"(L) x 2.68"(W) x 2.20"(H)

Gross Weight 2.58lbs /1.17kg

## Installation
