## Specifications:

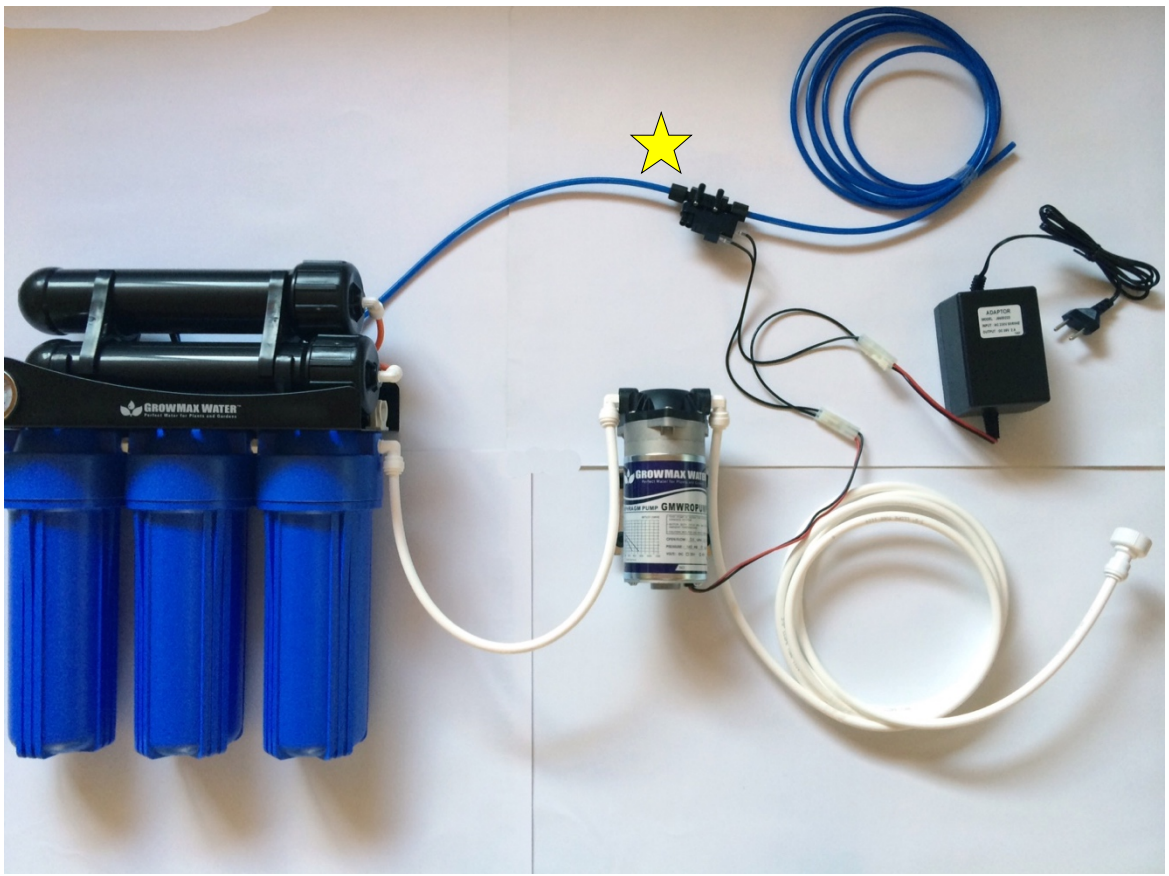

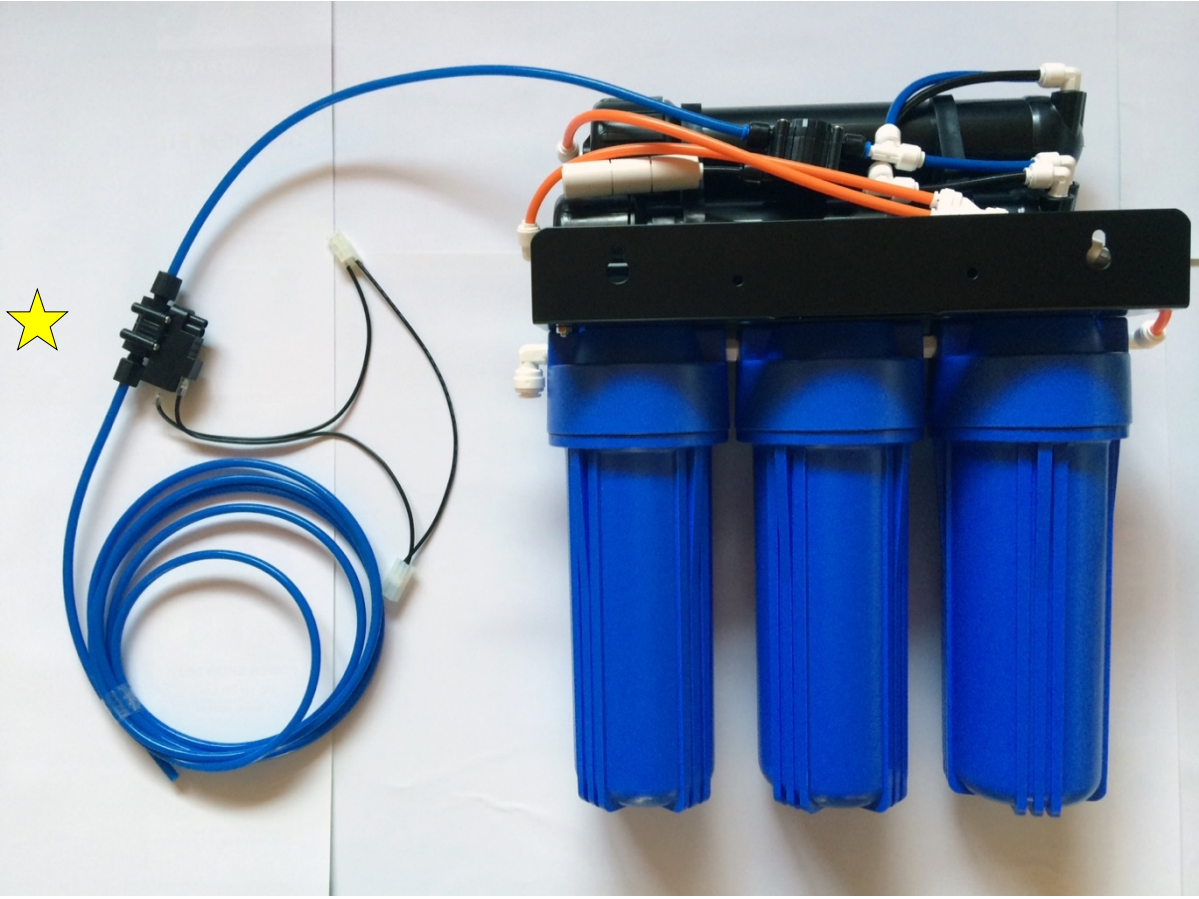

1. Boosts pressure to **60+ PSI (4kg/cm<sup>2</sup>)**.
2. Information Power Pump INPUT:
  - AC 230v
  - 50/60Hz
  - OUTPUT: DC 36v
  - 2A

## Recomendations:

Use teflon tape for the pump elbow connectors.

## MODEL MEGA GROW 1000

**\* Install Shut Off Switch only when we have the Float Valve Kit installed in the tank.**

**When the tank is full of water, the float valve will cause the system to stop producing water and the pressure switch will cut off the pump's electricity.**

**NOTE: the pumps are DC, so if we don't cut the power, it could burn.**
