

FRC-1

Smart Fan Remote

The Aerofan Smart Fan Remote Control (FRC-1) is specifically designed to adjust the fan speed and enable/disable the Swing function for Aero-Fan Smart Fans. It can also be seamlessly integrated with the TrolMaster Hydro-X Pro (HCS-2) to control the fans through the HCS-2 main controller. Additionally, the FRC-1 also includes separate Day mode and Night mode settings. The FRC-1 is equipped with a day-night photocell sensor that can easily detect whether it is Day or Night. This feature enables the remote to automatically switch between the two modes based on the ambient light conditions.

Specification

FRC-1

Input Voltage

Input Voltage 12V

Amperage

Amperage 0.1A

Package Dimensions

Size 6.30" /160mm(L) x 3.39" /86mm(W) x 3.39" /86mm(H)

Package Content

Smart Fan Remote (FRC-1) 1pc

12' RJ12 to 4-pin Connector Cable (ECS-9) 1pc

Working Environments

Temperature 32-104°F (0-40°C)

Humidity ≤90%

Gross Weight

0.86lbs /0.39kg
