# Don't worry, we've got you covered.

livebff.com

LIVE BFF is reinventing the home engineering process and solving the housing crisis, for good. With our extensive background in construction, automation, and engineering, we have created a manufacturing process that has redefined the home building process. Our process is revolutionary, efficient, and produces the highest quality minimalistic homes on the market today. We have taken the archaic process of building homes and improved it significantly.

Home building is archaic,. With our new home building process, you can own the home of your dreams, affordably.

Your house will be built on an assembly line and delivered to the location of your choice

Our homes are set to disrupt the housing market, coming in at a projected price of under \$99,000.

Our industry leading architects and engineers have resigned the home building process

# Projections
