

# WIRE STRAIGHTENER - 1092 & 1093

*Caution: When working with any tool, wear safety glasses.*

Whether you are fishing with a 10" leader or a 10' leader, it can get bent from catching a fish or from storage. That's why DU-BRO Products designed the Wire Straightener.

[Purchase](#)

1) Open Wire Straightener.

2) Lay wire over center roller of straightener.

3) Close Wire Straightener.

4) Hold Wire Straightener in clutched fist while pulling wire through the tool. Keep tool and wire parallel with each other.

5) Repeat if necessary until wire is straight
