**2**

**Left Barrel**

**Right Barrel**

*Counterclockwise Curl*

Recommended for right side of head
*Clockwise Curl*

Select the direction of the curls by choosing the corresponding barrel.

**3**

ends dangle

Hold the **middle of a ½-inch-to-1-inch section** of hair. **Let the ends dangle**.

**Pro tip:** Grab a section of hair that is a consistent length.

**4**

Turn on the styling wand. **Bring the barrel behind the dangling ends**. The **ends will automatically wrap** around the barrel - *no need to manually wrap*.

**5**

Once the ends wrap, let go of the hair section and slowly **bring the barrel directly to the roots**, allowing the hair to continue to wrap itself around the barrel. *No need to twist the wand*.

**6**

For best results and to avoid heat damage, **hold the barrel in place for 10 seconds,** then press and hold the **Cool Shot button for at least 10 seconds**. Repeat as needed until hair is dry. **Turn off the styling wand** and pull the barrel straight down to reveal your curl!

**Pro Tip:** Use a setting or holding spray as desired for an even longer-lasting look.
**Additional Styling Tips:**

• Take smaller sections and make sure your hair isn't too wet if it is having difficulty wrapping around the barrel.

• Use sectioning clips to prevent unwanted hair from being wrapped around the barrel.

• Test different moisture levels to understand the level of moisture that works best for your hair type.

• For curly or coily hair, prep your hair for curling by lengthening it using the paddle brush or oval brush.
