Makes 5 ltrs ready made tea

*Used in banquets board rooms and breakfast*

### **Single Serve Sachet: 10g**

makes 100ml

*Used for inroom, ITD, Alcater orders*

## FAQs

### 1. How to prepare?

**For 200 ml Sachet:** 1. Open the pouch 2. Pour the content in the cup 3. Add 100 ml hot water & serve

**For 500 gm Pouch:** 1. Open the zipper pouch 2. Pour the content in the urn 3. Add 5 litres hot water, stir & serve

### 2. Is Premix safe?

It is tried and tea-sted, fresh and authentic. It contains no additives and is made of garden fresh tea leaves!

### 3. For how long can we keep the Premix in the urn?

We recommend keeping the Premix for 2 hours, maximum 3, in the urn; just like we normally keep hand brewed Chai.

## FAQs

### 4. What's the shelf life of one 500 gm Premix pouch?

It can be safely stored inside an airtight container, in a dark and dry place for about 6 months. If stored well, the shelf life can be extended.

### 5. Can we use 500 gm for single serve?

We do not recommend using teaspoons of premix from the 500 gm pouch since it's a measured blend and any alteration might result in taste change. For single serve, we recommend using our Single Serve Sachets.

### 6. What if I see lumps?

We advise you to pour hot water and stir nicely simultaneously to avoid lumps, for single serve. For bulk tea, we recommend following the instructions mentioned above. Since urns get constant heat from the wax burners, lumps if any, will open up and settle well. This will ensure that there are zero lumps.

## *The true taste of India*

**ROHAN SIROHIA**  
*Founder, Goodwyn Tea*

"Our Chai Premix is a testament to our passion for delivering the true taste of India to our customers worldwide. We hope you enjoy every cup of our chai and become a part of our journey towards a better world, one sip at a time."
