# mother nature

Saint Cloche is very proud to reveal Tracey's latest, very personal body of work, 'MOTHER NATURE'. There are many artists whose works are inspired by nature, and this is certainly the case with Tracey but her works spring forth from nature, through collecting on her travels, bushwalks, frequented markets and favourite suppliers. To some sculptures she will integrate the man-made, recycling, and repurposing discarded materials that the artist finds endlessly fascinating because of their texture, form, and rhythm.

This show is a tribute to Tracey's mother and muse, who worked beside Tracey for many years, helping her create her botanical sculptures, as she continues her focus on honouring and trying to grow awareness of the importance of protecting Mother Earth through her art form.

## About the Artist

Celebrated for her sustainable sculptures and installations using organic and industrial recycled materials for over two decades – her creations are as distinctive as a thumbprint, and her signature artworks can be found in private and public collections.

Tracey was commissioned by The Art Gallery of NSW to create an installation to celebrate Daniel Boyd's Treasure Island in his first major Australian solo exhibition held in a major public art museum. She has also been commissioned by AMP to create a three-part installation 'Water Spirit' that draws inspiration from the original natural landscape of the area, paying homage to the traditional owners of the land. She is also one of two hundred artists and visionaries from around the world selected to recreate the iconic Louis Vuitton trunk in honour of the 200th birthday of the fashion house's creator. Tracey's sculpture 'Tree Spirit' was selected as a finalist in the prestigious Wynne Prize 2021 at the Art Gallery of NSW.

Most recently, Tracey created a museum installation for NGV's 'Art in Bloom' and an installation for the grand opening of AGNSW's Sydney Modern. She has continued to work with luxury brands such as LVMH and Hermes and has many public art installations around Australia.

*Living in full harmony and being respectful, of Mother Nature as our teacher, creates a balance in nature and all humanity.*

*The beauty of the natural world teaches us to take time to pause and look closely at nature's delicate intricate patterns, playful lush textures, sculptural whimsical shapes, and unique palette of diverse tones.*

*My exhibition “mother nature” is dedicated to and in honour of my beautiful mother “Mumma Deep”, my “tree spirit” whose roots run Deep within me. Showering us with her wisdom, nurturing us with her love and like “mother nature” is now at peace and in total harmony with her.*

*My mother, my lifetime apprentice, my teacher, with our interwoven connection, our rhythmic patternmaking, now my nature spirit whom I see at one with nature and now a part of me, the full circle of life, in total harmony with Mother earth.*

*My Mother the gift that never stops giving, who’s magical light shines bright forever.*
