Two choices of prefix must be given.

A prefix will not be allowed if it has already been used or is already in use. A list of prefixes is available on our website: www.dorsetsheep.org.uk, under Society and docs/forms for download.

INSPECTION

All sheep to be inspected must be female and over 6 months of age. They will be inspected by an Association Inspector and will be required to be of a high standard. If accepted they will be ear-tagged and known as Approved Sheep.

Progeny from approved ewes must be sired by a registered Dorset ram, but will not be eligible for entry into the main flock book. These will be known as “G1” females/males, and when registered will be issued with a red certificate, and “G1” and “does not qualify for export” stamped on the certificate. Progeny from “G1” females/males will then be eligible for registration and entry in to the main flock book.

Ear-tagging will be carried out by the Association’s Inspector at the owner’s risk. Please make sure clean water and disinfectant are available.

Fee: £50 inspection fee mainland UK & Northern Ireland (other areas – prices on application) plus £5.00 per ewe, plus VAT at 20% must be paid in advance and sent with this application form. We will issue an invoice/receipt for this. In the case of rejection, or, if for any reason any ewes to be inspected are unavailable, the fee is non-refundable.

Once the inspection has taken place you will be given a Society flock number.

The progeny’s tag must include your society flock number and year letter (appropriate to the year of birth).

New Flocks which are approved following inspection will have their first year’s subscription to the Association and the Flock Book free of charge.
