Size F	28"	34"	Fits window glass panes up to 25"W x 30"L
Size G	32"	46"	Fits window glass panes up to 29"W x 42"L

Look **ABOVE** the window glass to determine if there are **two inches** of clearance for the shade to attach. If not, just let us know how much room you have available and we will do our best to find a solution.

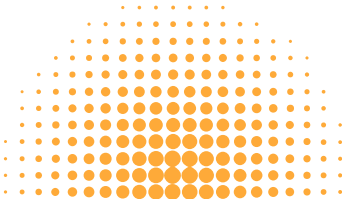

Look **IN-LINE WITH** and **BELOW** the window to see if there are any obstructions that would keep the window cover from deploying properly. Some obstructions we commonly see include crash bars, door handles, window ledges, and the floor.

**If there are any obstructions above, in-line with or below the window, please provide a picture along with the window pane measurements. We are happy to work with you to figure how to make the Hideaway Helper lockdown shades meet your needs!**

**Provide dimensions,  
in inches, of the  
window glass only  
("W x "L).**
