

TL-II

COST EFFECTIVE

School budgets are tight. TeacherLock is a fraction of the cost of a new door lockset and is easy to install.

CODE COMPLIANT

- Can be opened from the outside by emergency responders
- No special knowledge is necessary for egress
- Is only used during lockdown emergencies
- Accessible and intuitive egress
- ADA Compliant
- California Lever available
- Cycle tested to 700 years equivalent use
- Single Operation to egress
- No pinching, twisting, or grasping for egress

EASY TO INSTALL

We provide simple instructions and installation takes less than 5 minutes.

Teacherlock is easy to install with simple tools and a cordless drill.

"There is nothing more precious than our children and TeacherLock provides school educators and administrators with the ability to place students under imminent threat in a safer environment until public safety officials are able to arrive. Every second counts."

*-Cindy M. Rodriguez
President National Latino
Peace Officers Association*

TeacherLock®

PROTECTING STUDENTS ONE DOOR AT A TIME

THE FASTEST, MOST EFFECTIVE, CODE COMPLIANT CLASSROOM LOCKDOWN DEVICE

TeacherLock II was designed from the ground up for ease of use, speed, life safety, and affordability

- Intuitive locking - no fumbling with a traditional key
- Heads up and fast, single handed operation so teacher can attend to students
- Bully Proof – only authorized individuals control the door
- First responders can open the door with a special key
- Single operation to open the door
- ADA compliant
- Building and Fire Code compliant in 50 states
- Certified to UL10B, UL10C, NFPA252, CAN/ULC S104
- Adjustable for a variety of door levers

In the event of a lockdown emergency, seconds count. Our unique key is intuitive and tactile, to counter the effects of stress and loss of fine motor skills. Lockdown is achieved with a simple push of the key! TeacherLock II has been designed to open the door in one operation with a patent-pending mechanical interconnect. When it is time to exit, the natural motion of moving the door's lever will unlatch and unlock the door.

TL-II

MADE IN THE USA

Proudly manufactured and assembled in the USA by skilled engineers and technicians who are dedicated to occupant safety and active shooter defenses.

ENDORSED BY PROFESSIONALS

Law Enforcement, Building Inspectors, Firefighters and Safety Experts agree that institutions should be thoughtful and deliberate about how the doors are secured in a lock down. It is important to keep occupants as safe as possible all year long, not just when a crisis occurs.

FAST, SAFE, SECURE

Law enforcement officers and emergency personnel train constantly to act under stress. It is impossible for an untrained person to overcome the loss of fine motor skills and clear thought necessary to find keys, deploy a complex lock, and to call emergency personnel while protecting the occupants in the room.

This is why TeacherLock is different.

COMPLIANCE WITH LIFE SAFETY GUIDELINES and ADA

Teacherlock was designed from the ground up to address building codes and life safety guidance.

Teacherlock is the only retrofit lockdown device which:
Opens from the outside in an emergency with a special key.

Is BullyProof. Only authorized individuals control the door.

Is unlocked in a **single** operation. No additional motion, effort, or special knowledge is necessary.

Is ADA Compliant, mounted 34-48 inches from the floor.

"I was concerned by the number of products which flooded the market after the recent and tragic news of active shooter situations. I quickly realized that many barricade-style door locks, and door bars are unsafe and give a false sense of security, especially when they are so complex to use.

Barricading doors with furniture doesn't necessarily work, especially when the door swings outward. We needed to solve the problem of quickly locking a classroom door and TeacherLock is the result!"

*- Amy Emma,
Elementary School Principal and Co-Founder of TeacherLock*

Materials and Specifications

BODY, PLATE, and Strike: 6061 Aircraft Quality Aluminum

BOLT: Stainless Steel

TORSION and COMPRESSION SPRINGS: Long life, high strength music wire.

LEVER and ACTIVATOR: 6061 Aircraft Aluminum, anodized

OUTSIDE DOOR KEY: Stainless Steel

Fabricated and Assembled in the USA

Certified to UL10B, UL10C, NFPA252, CAN/ULC S104
