

Guest Bed

Assembly Instructions

Carefully unpack your frame.
Do not use a knife to cut through packaging

Top tips, important safety information and recommendations

Assembly: 2 person

Required area: 2 x 2.5 metres

Required tools: Scissors

Important:

Please check that all the parts are present and read the instructions thoroughly before commencing with assembly and retain for future reference.

It is important to inspect all items BEFORE assembly, if for any reason you need to return this item, you must return it in its original packaging. Assembled items CANNOT be returned.

Tips before you start:

We recommend that all items are assembled close to the place they will be in use and on a protective surface to avoid any unnecessary movement or contact that may damage the product.

For ease during assembly identify the parts required before commencing each step, taking care to avoid over-tightening the fittings as this may damage the furniture.

Safety:

Take extreme care when handling and lifting heavy products to avoid personal injury or damage to the item. Keep children well away from the assembly area due to the heavy products and choking hazard from small components.

Warning:

Please use this product for the specified purpose only, it is not to be stood on. If parts are missing, broken, damaged or worn stop using the product until fully repaired.

Failure to follow safety and warning information could result in serious injury.

Recommendations:

Please periodically check all fittings and re-tighten if necessary.

To avoid fire risks, warping and surface de-lamination keep away from strong heat sources and never allow liquid to remain on your furniture. To clean, lightly dampen a soft cloth and wipe, buffing with a dry clean cloth.

Supplied Fittings

Headboard bolts to be used to mount a headboard onto the Guest Bed.

Please check you have the correct fittings and read through before commencing with assembly.

Step 1

Turn the bed frames over and cut the straps as low as possible.

Step 2

Turn frame (A) over so it is the correct way up. *(This is a two man lift)*

Step 3

Turn frame (B) over so that it is above the frame (A) *(This is a two man lift)*

Position the 2 bed frames where you want them.

Step 4

To use frame (A), slide it out from under frame (B)

Step 5

Lift up one end of frame (A) and the leg will automatically drop down.

Step 6

Lift up the other end and then either use on its own or push next to the other section to make a double bed.

Step 7

To stow away frame (A) push the bottom of leg and lower the bed frame to the floor.

Repeat for the other end.

Step 8

Push frame (A) under frame (B)
