Project Description: \_\_\_\_\_

Number of waste rows provided: \_\_\_\_\_  None

**Please note:** If a design has no extra rows, some of the design may be lost when finished. We recommend stitching two extra rows around your project to prevent loss of design.  
One blocking is included in pricing. Heavily skewed canvases will require additional blocking at an additional cost.

**Considerations:**

**Sizing:** If the diameter of the needlepoint design is 7-8” across, it is most likely designed to fit an average adult head. The design may need to be modified before stitching to accommodate a younger individual. In this case, please provide a preferred diameter. Keep in mind that if the stitched canvas is significantly wider than the desired yarmulke diameter, this will add bulk to the seams and will not finish as neatly.

**Design:** Geometric yarmulke designs (especially those with stripes) do not always line up nicely along the darts. If your yarmulke has already been stitched and is ready to finish, there is nothing our finishing team can do to correct this design error. See example below.
