How to use the ring template from the goldsmith Stichnoth

Print out our ring template on an A4 sheet of paper. Select the print settings so that there are no borders and the scaling is at 100%. Then use a ruler, set square or tape measure to ensure that the test strip above is exactly 2cm in length. Then fold the sheet along the dotted lines along the circles. Now you can cut out the different ring sizes in semicircles. Then test the different ring sizes. Make sure that the ring template has to fit snugly.

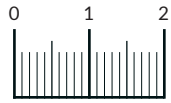

Important instructions

Please note that this ring template is only an approximation. You will not always be able to determine the exact ring size with this. For this reason, we are happy to offer you a free appointment in our branch, where your ring size will be determined professionally.

Schablone zur Bestimmung der Ringgröße

So benutzen Sie die Ringschablone der Goldschmiede Sticho

Drucken Sie unsere Ringschablone auf einem DIN-A4-Blatt aus. Wählen Sie die Druckeinstellungen so aus, dass keine Ränder und die Skalierung auf 100% ist. Vergewissern Sie sich dann mit einem Lineal, Geodreieck oder Maßband, dass der obige Teststreifen exakt 2cm der Länge entspricht. Dann knicken Sie das Blatt an den gestrichelten Linien entlang der Kreise. Nun können Sie die verschiedenen Ringgrößen in Halbkreisen ausschneiden. Testen Sie dann die verschiedenen Ringgrößen. Achten Sie darauf, dass die Ringschablone eng ansitzen muss.

Wichtige Hinweise

Bitte beachten Sie, dass sich bei dieser Ringschablone lediglich um einen Annäherungswert handelt. Sie werden nicht immer die exakte Ringgröße damit ermitteln können. Aus diesem Grund bieten wir Ihnen gerne einen kostenlosen Termin in unserer Filiale, bei dem Ihre Ringgröße professionell ermittelt wird.
