

Versapak Products for the Airline Industry

Versapak manufactures a range of tamper evident products for the aviation industry. We are privileged to make products for many big names including Virgin Atlantic, Emirates and easyJet. Our range includes pouches and carriers for food and drinks, ice, cash, documents, and duty-free items, all of which are secured using our recyclable security seals.

Customised Products

We are proud to manufacture our bags in the EU and our security seals in the UK. This means that we can make high quality bags and carriers to suit your exact requirements in a fraction of the time of our competitors.

Inflight Insulated Food Carrier

Versapak Insulated Food Carriers are used by airlines to transport and store food and drinks.
