

Tamper Evident Electoral Products

Versapak manufacture a range of secure, tamper evident Ballot Boxes for elections. They have been developed using feedback from local authorities, councils and presiding officers.

Our Ballot Boxes are unique as they are foldable (for ease of storage and transport), they are reusable over 2,000 times and come with a 5 year guarantee. Our opaque Ballot Boxes feature a solid lid posting slot. This is necessary to prevent voters from being able to reach into a box and take slips out. In addition, they are fitted with dual tamper evident lids for the highest level of security during and after voting. All Ballot Boxes can be customised to meet your exact requirements.

Small Ballot Box

Product Code and Dimensions
in mm (WxHxD):

BALLOT S: 350 x 365 x 330

Large Ballot Box

Product Code and Dimensions
