At NEXX, we do not just engineer helmets, we tech emotions.

We believe in the heat of passion - parts of life getting new blood.

HELMETS FOR LIFE is our motto, beyond the protection, past excellence, that any motorcyclist regardless of age or style lives the moment they wear NEXX.

Please read this manual very carefully before wearing your helmet and keep it in a safe place. For a correct use and for your safety, please pay attention to following instructions. The main function of the helmet is to protect your head in case of impact. This helmet is made to absorb some of the energy of a blow by partial destruction of its component parts and, even though damage may not be apparent, any helmet which has suffered an impact in an accident or received a similarly severe blow or other abuse should be replaced. To maintain the full efficiency of this helmet, there must be no alteration to the structure of the helmet or its component parts.

如何清洁遮阳板

EN To clean the visor without affecting its characteristics should be used only soapy water (preferably distilled) and a soft cloth. If the helmet is deeply dirty (ex. Insect remains) can add a little liquid from the dish to water. Remove the visor from the helmet before carrying a deeper cleaning. Never use objects to clean the helmet that may damage/scratch the visor. Always store the helmet in a dry place and protected from light, preferably in the bag provided by NEXX HELMETS.

CN 为了清洁面甲而不影响其特性，只应使用肥皂水（最好是蒸馏水配制的）和软布来清洁。如果头盔很脏（如有昆虫残骸），可以在水里加一点洗洁精。在进行更深入的清洁之前，应将面甲从头盔上取下。不得使用可能破坏/划伤面甲的物品来清洁头盔。始终将头盔存放于干燥避光的地方，最好是放在NEXX HELMETS公司提供的袋子里。

CN 用软尺包围头部进行测量。

The size selection of the helmet is crucial to ensure the safety of the user. Never should use a helmet that is too small or too large in relation to the size of the head. To purchase a helmet is important that you try it: make sure the helmet fits perfectly to the head, there should be no gap between the helmet and the head; make some movements of rotation (left and right) with the helmet on the head(closed) this should not shake; it's important that the helmet is comfortable and involving the entire head.

头盔尺寸的选择对于保证使用者的安全至关重要。绝对不可使用对于头部尺寸过小或过大的头盔。购买头盔时进行试戴是很重要的：确保头盔完美贴合头部，头盔与头部之间不应有间隙；戴着头盔（关闭面罩）做一些转头动作（向左和向右）时，头盔不应有晃动；重要的是，头盔佩戴感觉要舒适且能包住整个头部。

THIS IS NOT COVERED UNDER WARRANTY!

We are not liable for any damage, loss or detriment resulting from faulty assembly of any accessory.

- Do not expose the helmet to any type of liquid solvent;

- The helmet should be handled with care. Leaving it drops can damage the painting as well as reduce their characteristics of protection.

THIS IS NOT COVERED UNDER WARRANTY!

- Keep the helmet in a safe place (not hang on the mirror of motorcycle or other support than can damage the lining). Do not carry your helmet on the biker or in the arm while driving.

- Always use the helmet in the proper position, using the buckle to adjust to the head;

- In order to maintain trouble free operation of the visor, it is advisable to periodically lubricate the mechanisms and rubber parts around the visor with silicone oil. The application may be made with a brush or with the help of a cotton swab.

Apply sparingly and remove the excess with a dry clean cloth. This proper care will maintain the softness of the rubber seal and will dramatically increase the durability of the visor fixing mechanism.

- Clean and lubricate mechanisms after use in extreme off road dust and dirt conditions.
