Performance. Beyond. Expectations.

ABOUT US

GA2 Medical Sdn Bhd is proudly ISO13485:2016 Certified and CE marked with scope to manufacture medical plasticware products such as bowls, trays, gallipots, kidney dishes, medicine cups and other polymer hollowware products in both single use / disposable and reusable forms.

Despite being uncomplicated products, they are used in substantial quantities throughout hospital wards and theatres, day surgeries, nursing and respite facilities, GP and dental clinics, pharmacies, laboratories and other healthcare facilities every day, in every corner of the globe.

Significantly, they commonly compliment other capital, consumable and surgical products and equipment sold into, and used within, all of these facility types. Additionally, our products are well suited for inclusion into custom procedure packs and kits. We currently serve many multinational, blue chip companies in this regard.

Our products have been recognised for outstanding quality, competitive pricing and exceeding customer expectations and have been designed to offer solutions to a variety of patient, staff and environmental problems that challenge the healthcare industry, particularly in regards to cost, safety and infection control.

GA2 Medical is proud to work with its distribution partners, who experience the advantage of working with a Company that lives by its motto of PERFORMANCE. BEYOND. EXPECTATIONS. We define our Performance to include profitability, sustainability, value, accountability, cooperation, functionality, engaging in and maintaining relationships with key stake holders and professional management, to name a few measurements.

We invite you to visit our website **www.ga2medical.com** to gain more understanding of our products and company details.
