

# HORSE IMMUNE OIL

Horse Immune Oil is an all-natural way to keep your horse's immune system functioning at its best! A powerful blend of oils and plant extracts help boost and support your horse's defence system from within.

## BENEFITS

May assist with:

- ✓ Reducing free radicals formed in the body
- ✓ Decreasing free radical damage
- ✓ Maintaining and supporting wound healing
- ✓ Maintaining and supporting immune system health
- ✓ Maintaining and supporting a healthy immune system function
- ✓ Maintaining and supporting joint health

## WHY IS IT UNIQUE?

Horse Immune Oil is a combination of natural vegetable oils and plant extracts designed to assist your horses immune system when it has been breached or compromised.

Horses are exposed to the elements daily and vulnerable to biting insects like mosquitoes and sand flies. This can lead to diseases affecting their performance such as bacterial or viral infections.

Horse immune oil has been designed as a feed additive to help both boost and support your horses immune system internally.

Clinical observations have shown horses that receive Horse Immune Oil increase endurance and recovery from many undiagnosed symptoms.

## INGREDIENTS

- Melaleuca Alternifolia Leaf Extract
- Rice Bran Oil
- Canola Oil
- Olive Oil
- Soybean Oil
- Sunflower Oil
