## Premium Pet Minerals

Turn Any Pet Food into Premium Pet Food  
with PN Premium Pet Minerals

# Premium Pet Minerals

PN Premium Pet Minerals contain a broad spectrum of nutrients designed to give your pet a boost of nutrition. Many pet foods and the food that we feed our pets lack essential nutrients that our pets need everyday to assist growth, prevent disease and build a healthy immune system.

Maintaining a healthy pet can be expensive and in many cases people with pets have little choice but to opt for a cheaper food to help balance the budget.

Premium Pet Minerals contains over 90 essential nutrients that your pets need to maintain a balanced diet and for their general wellbeing.

PN Premium Pet Minerals can be sprinkled on your pets food, wet or dry to boost or top up the nutrients of any pet food.

PN Premium Pet Minerals contains over the 90 essential nutrients needed to maintain sustainable health and nutrition.

# Green Lipid Mussel Powder

## Benefits:

- ✓ Supports the circulatory system
- ✓ Natural anti-inflammatory with no known side effects  
(unless your dog is allergic to shellfish)
- ✓ Offers a boost to the immune system
- ✓ Strengthens teeth and bones
- ✓ Has Omega-3 fatty acids
- ✓ Supports nerve cell functioning while improving muscle, tissue and organ stimulation

# Why Do Our Pets Need Minerals

Animals need minerals for all functions of life.

- The formation of blood and bone
- The proper composition of body fluids
- The maintenance of a healthy nerve system
- The regulation of muscle tone
- The regulation of heart beat
- The regulation of cardiovascular system
- Used in energy production
- Used for healing and growth
- To utilise vitamins and other nutrients
- For the production of enzymes
- Is essential for hormone structure
- Critical in DNA synthesis
- Helps balance pH levels
- Helps neutralize toxic metal (detox)
- Immune function
- Assist with fatigue
- Keep a healthy reproductive system

# PN Premium Pet Minerals

## Contains Concentrate Aloe Vera

---

- Rich in vitamins & minerals
- High in essential fatty & amino acids
- Helps with digestive process
- Support the cardiovascular system
- Boosts the immune system
- Reduces inflammations
- Increases the body's alkalinity
- Improves the metabolism & facilitates weight loss
- Moisturizes and lubricates the skin
- Rids the body of harmful toxins
- Fights bacterial, viral & fungal infections

# Kelp

PN Premium Pet Minerals contains Australian Kelp.

- ✓ Sea Kelp has been shown to help alleviate arthritis pain
- ✓ Kelp can help to increase energy levels
- ✓ Boost immunity
- ✓ Improve liver function
- ✓ Fight against heart disease and cancer
- ✓ Control appetite and can help with weight loss
- ✓ Sea Kelp has been used to treat thyroid problems
- ✓ Helps with poor digestion, flatulence and constipation
- ✓ Kelp kills the herpes virus
- ✓ Kelp helps to lower cholesterol levels
- ✓ Kelp helps to maintain the health of the mucous membranes
- ✓ Kelp can be used to help reduce hair loss

# PN Premium Pet Minerals Contains Moringa

Moringa has over 90 nutrients from 540 plant compounds.

Dried Moringa leaves contains more nutrient gram for gram of the following nutrients:-

10 times the Vitamin A of Carrots

½ the vitamin C of Orange's

17 times the Calcium of Milk

15 times the Potassium of Bananas

25 times the Iron of Spinach

9 times the Protein of Yoghurt

12 times the vitamin A of Almonds

# MSM Sulphur

MSM - Methyl Sulfonyl Methane is a rich source of organic sulphur which may help to improve joint function. Sulphur is a mineral which is required by every cell in the body, including cartilage which is rich in sulphur containing compounds. It may temporarily reduce pain associated with mild osteoarthritis.

# Sea Minerals and Kelp

Sea Kelp feeds directly on the minerals and trace elements of sea water and has the unique ability to concentrate these in its leaves and stems in almost the exact proportions they should be in healthy blood. This ability has led to Sea Kelp emerging as an important source of vital elements that are no longer present in many foods, such as Iodine. Minerals from Kelp are very similar to those found in the animal and human body and can be easily absorbed. Our pets need these minerals to maintain a good healthy life.

# Your Pets Immune System

Only good healthy nutrition with a broad spectrum of minerals can build your pets healthy immune system.

Premium Pet Minerals also acts as a powerful immune system support supplement designed to help natural immune function. This powerful support for the immune system helps enable a strong immune response when animals are challenged by infections or allergens.

Premium Pet Minerals are best fed daily when used to target existing issues.

For best results.

Premium Pet Minerals should be fed for a minimum of 7-10 days. Most will see benefits within days; however, this will depend on the severity of the individual pets condition.

# Improve Pet Bone Health With Silica

Calcium and Vitamin D alone are not sufficient for bone growth, density, strength, and flexibility. In fact, a pet's body cannot absorb and use Calcium without the presence of Silica.

To re mineralize and repair damaged bones, it is now advised that a sufficient Silica supplement be taken daily because bones are composed mainly of the macro minerals Phosphorus, Magnesium and Calcium along with many micro minerals. However, these minerals need the presence of silica to be deposited into the bones, especially calcium. Silica hastens the healing of fractures and also diminishes scarring at the location of a fracture.

# Silica

Paradise Nutrients uses Amorphous Silica in our pet minerals.

Amorphous Silica Diatomite is the fossilized shells of microscopic water dwelling organisms known as Diatoms. Diatoms are one celled plants (algae or phytoplankton) that are the primary food source for marine life. These plants have been part of the earth's ecology since prehistoric times, yet their species still exists today in both salty and fresh waters all over the world.

# Pet Allergies

Just like people, dogs and cats can show allergic symptoms when their immune systems begin to recognize certain everyday substances or allergens as dangerous. Even though these allergens are common in most environments and harmless to most animals, a dog with allergies will have an extreme reaction to them.

Allergens can be problematic when inhaled, ingested or contact your pets skin. As their body tries to rid itself of these substances a variety of skin, digestive and respiratory symptoms may appear.

PN Premium Pet Minerals will assist to strengthen your pets immune system, to help your pet to overcome or cope with many of these allergies.

# Parasites

Parasites can infect your pet any time of year. External parasites, such as fleas and ticks, may be less prevalent outside during certain times of the year. They often survive in the house during the winter months, creating an uninterrupted life cycle. Other internal parasites, such as worms, may affect your pet all year long. That's why it's important to include a parasite prevention program as apart of your daily feeding program.

Premium Pet Minerals includes proven ingredients that may have a natural preventive action to many internal and external parasites. The ingredients in Premium Pet Minerals are designed to work in synergy with each other to create a natural defence system in your pet to help it to resist these nasty parasites on a daily basis.
