

Benefits of Tea Tree

- Tea Tree Oil is a natural antibacterial disinfectant.
- It cures infections caused by fungus, bacteria, and viruses.
- Treats skin conditions like acne, blisters, sunburns and dandruff.
- Helps with respiratory issues, including asthma and bronchitis.
- Fights infectious diseases such as chicken pox and flu.
- Strengthens the immune system when weakened.

Benefits of Aloe Vera

- Soothes sunburned skin due to its moisturising and healing properties.
- Helps fade dark spots or hyperpigmentation on the skin.
- Moisturises skin by hydrating and retaining moisture; ideal for dry skin types.
- Acts as a restorative scalp mask, soothing irritation and hydrating the scalp.
- Can clear up acne through its antimicrobial and anti-inflammatory properties.
- Soothes skin conditions like psoriasis and eczema, reducing inflammation and acting as an antiseptic
