## Crimping Tool for Large Insulated Ferrules

AWG 4 & 2

Rubberized comfort grips

Precisely milled, hardened steel dies

Built-in ratchet applies correct pressure to ensure a complete crimp every time

Quick die replacement, no tools required!

## Exchange Dies with Ease—No Tools Required

Aven's professional-grade crimping tool has a smooth ratcheting mechanism that creates uniform and secure crimps every time. A precise ratcheting mechanism ensures the same amount of crimping force for all crimps. The patented design allows for quick die change without any tools and ergonomic handles are made from a special bi-component material, ensuring a cushioned and non-slippery surface. Replacement dies sold separately in a variety of terminals.

- Patented design allows for quick die change without any tools
- Built-in ratchet applies correct pressure to ensure a complete crimp every time
- Ergonomic comfortable handles ensure a cushioned and non-slippery surface
- Replacement dies available for a variety of terminals
