Mighty Cam Pro

Auto Focus HDMI/USB/SD

Aven's Mighty Cam Pro is an all-in-one inspection auto-focus camera. This camera offers both USB and HDMI outputs for inspection from an HD monitor or your PC via the included Mosaic software. This camera features integrated measurement capabilities for measuring without a PC. This camera also features a built-in SD card port for capturing instant high resolution images with no need for a PC.

Macro Lens

Micro Lens

Mighty Cam Pro Features:

- Camera offers both continuous and single-shot auto focus modes.
- Data transfer up to 60 frames per second
- HDMI, USB2.0 and SD card outlets
- Save images directly to SD card *no computer required*
- Includes software Mosaic 2.1
- Attachable lenses available for purchase
- Attachment on back of camera to easily attach to N-Mount
- Real time image stitching
- Perfect color reproduction
- Professional digital image measurement software system

Mighty Cam Pro

Auto Focus Digital Microscope

W/ Pneumatic Stand

High definition 1080P auto focus inspection system with a 22" monitor offering superb image quality at 60 frames per second. Working distance 6" with magnification range of 7x-70x. You can operate this system with or without a PC. Without a PC camera connects directly to the included HDMI monitor. View and record images and perform measurements using the included on screen tools. Images & videos can be saved to the included SD card. Connect the camera to a PC to utilize more advance features in the included software. The included dual gooseneck LED light allows you to illuminate the object to get the sharpest and greatest detail. The versatile Pneumatic Arm Stand provides multiple configuration options. The stand features an adjustable spring-balanced arm to mount the camera. By elevating the camera off of the work surface, operators can save valuable bench space..

Features:

- Achieve instant auto focus – no need to adjust the focus of the lens
- Superior optics: 7x-70x magnification at a 6" working distance
- Crystal clear viewing: 22" 1080p monitor
- No computer required for image processing
- Features on-screen measurement tools for HDMI mode - no PC required
- Dual pipe lights on flexible gooseneck
- USB and HDMI outputs for use with a PC or HD monitor
- Built-in measurement software - no PC required
- Advanced measurement software included for use with PC
- Built-in SD card slot - save images and videos
- Spring balanced arm is designed to mount a digital microscope
- The spring balanced arms can be moved and angled to the ideal configuration
- Eliminates the fatigue and eye strain associated with frequent microscope use

Mosaic Software

Compatible with Mosaic V2.1 Computational Imaging Software Fast, efficient and worry-free is the core design concept of Mosaic V2.1 software. It adopts a new image "shooting-processing-measurement-reporting" function, modular design, and integrates various intelligent image processing algorithms. It is dedicated to providing users with more simple operation modes and improve work efficiency in all circumstances.
