CATALOGUE PRODUCTS

Lion Ltd. is established in 1996 with its headquarter in Gradiška (B&H) and the main activity of the company is the wholesale of raw materials for the production of upholstered furniture.

Lion Ltd. in its collection of upholstery fabrics and eco leathers offers a large number of colors and designs that we choose depending on the needs of the market, current trends and technological progress. Our concept is that all our upholstery fabrics and eco leathers are ecological and harmless to human health. With our dedication to work, professionalism and fast delivery, we have gained a reputation as a serious supplier for both small crafts and large furniture manufacturers.

Our quality has been recognized not only by customers in Bosnia and Herzegovina but also by customers from surrounding countries, so we decided to expand the capacity of our services and ensure the quality of goods. Thus, in August 2019, we opened an office in China (Lion office, Linping, Yuhang, China) with 8 employees, and the role it plays is to control the quality of manufactured goods before distribution. It will soon be enlarged for the laboratory where we will be able to control the quality of our products in more details. The office is also focused on developing new fabrics, which will complete our collection in the future.

In September 2020, we raised the business process to a higher level by opening an office and warehouse in Germany (Lion GmbH, Löhne, Germany). It is also a distribution center for Germany and countries in the region. By expanding our market to EU countries we achieve continuous growth, which is our goal. All for the sake of delivering goods and presenting our products to customers in the fastest and highest quality way.

In the wide range of products we offer for the production, the largest part is occupied by furniture fabrics, eco leather, mechanisms and staplers which we mainly import from China, Turkey, Poland and Croatia.

NEW COLLECTION 2022

Furniture fabric is an indispensable part of furnishing any space, and since its appearance in the 60s of the last century, it is considered as a material that provides strength, easy to clean, resistant to fading, wrinkles and abrasion.

According to the abrasion test that measures the susceptibility of materials to wear, most of our materials are rated at 50,000 double edges, which means high durability.

ARETHA

Extremely soft to the touch, the structure of this furniture fabric leaves the visual impression of a monochromatic pattern with several shades, depending on the light source, because the design resembles to fish scales. This feature contributes to the rich and expensive look of the fabric from the Aretha collection and as such will be increasingly popular. Although new in the offer, it won over customers in a short time.

Extrem weich im Griff, hinterlässt die Struktur dieses Möbelstoffs den visuellen Eindruck eines monochromen Musters mit verschiedenen Schattierungen, je nach Lichtquelle, da das Design an Fischschuppen erinnert. Diese Eigenschaft trägt zum reichen und teuren Aussehen des Stoffes aus der Aretha-Kollektion bei und wird als solches immer beliebter werden. Obwohl neu im Angebot, hat es die Kunden in kurzer Zeit für sich gewonnen.

Izuzetno meka na dodir, struktura ovog mebl štofa ostavlja vizuelni utisak jednobojnog dezena sa više nijansi, u zavisnosti od izvora svjetlosti, jer dizajn podsjeća na riblju krljušt. Ova karakteristika doprinosi bogatom i skupom izgledu štofa iz Aretha kolekcije i kao takav biće sve popularniji. Iako nov u ponudi, za kratko vrijeme je osvojio kupce.

IBIS

Trends are repeated, so the Ibis collection is one of those that takes us back to some other times, but without which the novelties in the world of interior design are not complete. Ibis is a type of plush characterized by a discreet print whose colors are less saturated, muted, warm, those that create an old, vintage feeling, and on whose surface the game of light is endless.

Trends wiederholen sich, und so ist die Ibis-Kollektion eine derjenigen, die uns in andere Zeiten zurückversetzt, ohne die aber die Neuheiten in der Welt der Inneneinrichtung nicht vollständig sind. Ibis ist eine Art von Plüsch, der sich durch einen dezenten Druck auszeichnet, dessen Farben weniger gesättigt, gedämpft und warm sind, die ein altes Vintage-Gefühl erzeugen und auf deren Oberfläche das Spiel des Lichts endlos ist.

Trendovi se ponavljaju, pa je tako i kolekcija Ibis jedna od onih koja nas vraća u neka druga vremena, ali bez koje noviteti u svijetu enterijera nisu potpuni. Ibis je vrsta pliša kog karakteriše diskretni print čije su boje manje zasićene, prigušene, tople, one koje stvaraju stari, vintage osećaj i na čijoj je površini igra svjetlosti beskonačna.

DOLLY

Extremely soft on touch, softer and more moderate version of the Panda collection - Dolly fabric is one of those that warmth lovers choose without hesitation. We chose the colors recommended by Pantone trends for the upcoming season, and they are inspired by nature - sky, earth, stone, and forest colors, you can't go wrong with! It is water repellent.

Ein extrem weicher Stoff, eine weichere und gemäßigtere Version der Panda-Kollektion - Dolly ist einer der Stoffe, für die sich Wärmeliebhaber ohne zu zögern entscheiden. Wir haben die von den Pantone-Trends für die kommende Saison empfohlenen Farben ausgewählt, die von der Natur inspiriert sind - Himmel, Erde, Stein und Waldfarben, mit denen man nichts falsch machen kann! Es ist wasserabweisend.

Izuzetno mekan na dodir, nježnija i umjerenija verzija Panda kolekcije - Dolly štof je jedan od onih koji ljubitelji topline biraju bez razmišljanja. Boje smo birali po preporuci Pantone trendova za predstojeću sezonu, a inspirisane su prirodom - nebom, zemljom, kamenom, šumom, bojama sa kojima ne možete pogriješiti! Vodoodbojan je.

PANDA

Although it seems that the 6 colors of this collection are few, we can still say with certainty that it is quite enough for the infinite number of possibilities offered by these warm and soft materials. They are ideal for combinations with other fabrics as well as for armchairs, chairs, pillows, and smaller furniture units. What is certain is that this fabric attracts attention, especially in interiors of winter mountainous areas. For Panda, we can say that it will contribute to the warmth of the space in which it will be located.

Auch wenn die 6 Farben dieser Kollektion nur wenige zu sein scheinen, können wir mit Sicherheit sagen, dass sie für die unendlichen Möglichkeiten, die diese warmen und weichen Materialien bieten, völlig ausreichen. Sie sind ideal für Kombinationen mit anderen Stoffen sowie für Sessel, Stühle, Kissen und kleinere Möbelstücke. Sicher ist, dass dieser Stoff die Aufmerksamkeit auf sich zieht, vor allem in Innenräumen in winterlichen Bergregionen. Für Panda können wir sagen, dass er zur Wärme des Raumes, in dem er sich befindet, beitragen wird.

Iako se čini da je 6 boja ove kolekcije malo, ipak možemo sa sigurnošću tvrditi da je to sasvim dovoljno za beskonačno mnogo mogućnosti koje nude ovi topli i mekani materijali. Idealni su za kombinacije sa drugim štofovima kao i za fotelje, stolice, jastuke i manje namještajne jedinice. Ono što je sigurno – ovaj štof privlači pažnju, posebno u enterijerima zimskih planinskih područja. Za Pandu definitivno možemo reći da će doprinjeti toplini prostora u kome se bude nalazila.

KIZAI

The Kizai collection offers fabrics that, when we look closely, are multidimensional, due to 3 shades of threads joined into one whole. However, each of them has the dominant color, which prevails and determines it. It is water repellent and very popular due to its Scandinavian character.

Die Kizai-Kollektion bietet Stoffe, die bei genauem Hinsehen mehrdimensional sind, da sie aus 3 verschiedenen Fadenschattierungen bestehen, die sich zu einem Ganzen verbinden. Jeder von ihnen hat jedoch eine dominante Farbe, die ihn beherrscht und bestimmt. Sie ist wasserabweisend und wegen ihres skandinavischen Charakters sehr beliebt.

Kizai kolekcija nudi štofove koji su, kada ih pogledamo izbliza, višedimenzionalni, zbog 3 nijanse niti spojenih u jednu cjelinu. Ipak, svaki od njih ima onu dominantnu boju, koja preovladava i određuje ga. Vodoodbojan je i veoma popularan zbog svog skandinavskog karaktera.

EUROPA

The Europe collection has held an enviable place in the market for years for a reason. At first glance you would not separate it from real leather because the item exude with quality, and each of its colors are inspired by nature and the environment. The finished product obtained by a slightly more complicated production goes through several phases, from dyeing, printing, transitioning with foil, then binding and finally printing with glue.

Die Europe-Kollektion hat aus gutem Grund seit Jahren einen beneidenswerten Platz auf dem Markt. Auf den ersten Blick würde man sie nicht von echtem Leder unterscheiden, denn der Artikel strahlt Qualität aus, und jede seiner Farben ist von der Natur und der Umwelt inspiriert. Das fertige Produkt, das durch eine etwas kompliziertere Produktion erhalten wird, durchläuft mehrere Phasen, vom Färben, Bedrucken, Übergang mit Folie, dann Bindung und schließlich Druck mit Klebstoff.

Europa kolekcija godinama drži zavidno mjesto na tržištu s razlogom. Na prvi pogled ne biste je razdvojili od prave kože, odiše kvalitetom, a svaka od njenih boja su inspirisane prirodom i okruženjem. Gotov proizvod dobijen malo komplikovanijom izradom, prolazi kroz više faza, od bojenja, štampanja, zatim ide prelaz folijom, pa vezivanje i na kraju štampa ljepilom.

Orion kolekciju čini elegantan štof koji je pronašao čestu primjenu u skandinavskom načinu izrade namještaja. Vrsta tkanog platna, koji na prvu djeluje kao vuna, je prvo obojen, a zatim iščetkan u svrhu dobijanja sjaja. Prijatan osjećaj na dodir ne izostaje. TERRA

The fabrics from the Terra collection look like Bouclé (French: bouclé, from boucler: curly), a fabric with small loops which is used in the cold period, so these materials exude warmth and a positive and calm energy. With the final brushing effect, the advantage of Terra fabric is that its long fiber makes the surface very soft and comfortable.

Die Stoffe aus der Terra-Kollektion sehen aus wie Bouclé (französisch: bouclé, von boucler: kräuseln), ein Stoff mit kleinen Schlingen, der in der kalten Jahreszeit verwendet wird, daher strahlen diese Stoffe Wärme und eine positive und ruhige Energie aus. Mit dem abschließenden Bürsteneffekt liegt der Vorteil des Terra-Stoffes darin, dass seine lange Faser die Oberfläche sehr weich und angenehm macht.

Tkanine iz Terra kolekcije liče na Bukle (franc. bouclé, od boucler: kovrdžava), tkaninu sa sitnim petljama, koja se koristi u hladnom periodu, pa tako i ovi materijali odišu toplinom i jednom pozitivnom i mirnom energijom. Sa završnim "brushing" efektom, prednost Terra štofa je ta što njeno dugo vlakno čini površinu jako mekom i udobnom.

TITAN

The type of glossy plush to which is applied a very high quality base as a significant component when placing the canvas on the furniture with the additional characteristic of water resistance, will certainly provide a high level of the desired quality. Its discreet shine and gentle touch like silk gives the furniture an aristocratic look, which is why it is highly sought-after. The Titan collection is the collection with the most colors. When it comes to this material, color is never enough.

Die Art von glänzendem Plüsch, auf den eine sehr hochwertige Unterlage als wesentlicher Bestandteil beim Auflegen der Leinwand auf das Möbel mit der zusätzlichen Eigenschaft der Wasserbeständigkeit aufgetragen wird, wird sicherlich ein hohes Niveau der gewünschten Qualität bieten. Sein dezenter Glanz und seine sanfte Haptik wie Seide verleihen den Möbeln ein aristokratisches Aussehen, weshalb er sehr begehrt ist. Die Titan-Kollektion ist die Kollektion mit den meisten Farben. Wenn es um dieses Material geht, Farbe ist nie genug.

Njegov diskretan sjaj i nježan dodir poput svile daje namještaju aristokratski izgled, zbog čega je veoma tražen. Kolekcija Titan predstavlja kolekciju sa najviše boja. WONDER

Although a new material, Wonder is becoming an absolute hit in the market. As its name suggests, it is amazing, intriguing and powerful fabric. The slightly ribbed structure of this fabric exudes a harmonious and precise design of the material made by the Chenille weaving technique. It is resistant to wear and has a very firm structure where softness and smoothness are also not lacking.

Obwohl ein neues Material, entwickelt sich Wonder zu einem absoluten Hit auf dem Markt. Wie der Name schon sagt, ist es ein erstaunlicher, faszinierender und kraftvoller Stoff. Die leicht gerippte Struktur dieses Stoffes strahlt ein harmonisches und präzises Design des durch die Chenille-Webtechnik hergestellten Materials aus. Er ist verschleißfest und hat eine sehr feste Struktur, bei der es auch an Weichheit und Geschmeidigkeit nicht mangelt.

Iako novi materijal, Wonder postaje apsolutni hit na tržištu, kao što mu naziv kaže, čudesan, intrigantan, moćan. Blago rebrasta struktura ove tkanine odiše skladnim i preciznim dizajnom materijala izrađenog Chenille tehnikom tkanja. Otporan je na habanje i ima jako čvrstu strukturu, a mekoća i glatkoća ne izostaju.

PU COLORADO

The first associations when it comes to eco-leather is the luxurious look, but what significantly distinguishes it from natural leather is the difference in price, ie. its advantage in relation to the same. A wide range of applications, beautiful and simple appearance, as well as ease of maintenance make this eco leather popular on the market for a long time.

Die ersten Assoziationen zu Öko-Leder sind die luxuriöse Optik, aber was es wesentlich von Naturlleder unterscheidet, ist der Preisunterschied, d.h. sein Vorteil gegenüber dem gleichen. Vielfältige Einsatzmöglichkeiten, schöne und schlichte Optik sowie Pflegeleichtigkeit machen dieses Öko-Leder seit langem auf dem Markt beliebt.

Prve asocijacije kada je eko koža u pitanju jeste luksuzan izgled, ali ono što ga znatno razlikuje od prirodne kože jeste razlika u cijeni, tj. njegova povoljnost u odnosu na istu. Širok spektar primjene, prelijep i jednostavan izgled, kao i jednostavnost održavanja čine ovu eko kožu već duže vrijeme popularnom na tržištu.

A photograph of a long, narrow hallway or storage area. The walls and floor are lined with rows of wooden pallets. Each pallet is stacked high with crumpled, white paper, likely representing waste or recycling. The perspective is from one end of the hallway, looking down its length. The lighting is somewhat dim, and the overall tone is industrial and somewhat somber. The word "RESPECT" is overlaid in large, bold, white, sans-serif capital letters across the center of the image.

RESPECT
