

Adult Orthodontics: Tackling Challenges with Precision and Innovation

 Friday, 17th May 2024

 KWD 100

 The Regency, Kuwait

Join UK Consultant Orthodontist Dr Sara Hosni and expand your skills and knowledge of Adult Orthodontics with our comprehensive course, "Adult Orthodontics: Tackling Challenges with Precision and Innovation." This course will focus on treatment planning, anchorage management, and overcoming the common pitfalls encountered in adult cases. Participants will gain invaluable insights and practical skills to navigate complex cases with confidence and precision.

Throughout the course, participants will explore various topics, including the management of anterior open bite cases and ortho-restorative cases, providing attendees with a holistic understanding of adult orthodontic treatment modalities. Practical sessions will feature innovative tools such as the Infinitas palatal appliances and recent developments using 3D Printed TAD based RME appliances allowing participants to gain hands-on experience and enhance their clinical proficiency.

Learning Objectives

By the end of the course, participants will:

- Develop a comprehensive understanding of treatment planning strategies for adult orthodontic cases, including orthognathic and ortho-restorative cases.
- Acquire proficiency in anchorage management techniques to optimise treatment outcomes in adults.
- Identify common pitfalls and challenges encountered in adult orthodontic treatment and implement effective resolutions.
- Gain practical experience in the use of innovative tools such as the Infinitas palatal appliances through hands-on sessions.
- Engage in case-based discussions to analyse real-life scenarios and apply learned concepts to clinical practice effectively.
- Participants will leave the course empowered with the knowledge, skills, and confidence to navigate the complexities of adult orthodontic treatment and deliver superior care to their patients.

Dr Sara Hosni

BDS DSc (Orth) MFDS RCSEd MOrth RCSEd FDS (Orth) RCSEd

Consultant & Special Orthodontist | Honorary Lecturer in Orthodontics |
Royal College of Surgeons - Lady Estelle Wolfson Fellow

Dr Sara Hosni is an accomplished Consultant and Specialist Orthodontist, graduating from Newcastle University in 2009. Her diverse experience includes roles in oral surgery, restorative dentistry, and paediatric dentistry before pursuing specialised orthodontic training at Liverpool University. In 2015, she earned her Doctorate in Orthodontics, presenting her research at the International Orthodontic Congress and winning the UTG Research Awards.

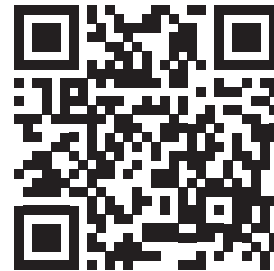

As an honorary clinical lecturer at Liverpool University, Sara shares her expertise with students in the DSc programme. She is also a contributor to orthodontic literature, a reviewer for various journals, and examiner for the Royal College of Surgeons in Edinburgh.

Currently a Consultant at Salford Royal and practicing in Manchester, Sara uses Temporary Anchorage Devices (TADs), for a variety of malocclusions, using both direct and indirect anchorage but has a special interest in their use for intrusion. Recognised for her leadership, she received the Lady Estelle Wolfson Emerging Women Leaders fellowship at the Royal College of Surgeons.
