DB04-3008
NRP £1.20 Offer £0.85
Introducing the New Evolve Poly Composite bracket, featuring a Nano-particle coating which is highly resistant to staining. Evolve Bonds like a metal bracket therefore requiring no additional primer, and de-bonds easily at the end of treatment.

Available in: Roth, MBT, 0.018 and 0.022 prescriptions.

Hooks available in 3,4,5s.

Removable Colour Coding Dot
Makes identification easy

Ultra-Smooth, Strong Hooks
For added patient comfort and secure engagement of elastics

Smooth, Strong & Contoured Tie Wings
Ensure maximum patient comfort

Optimum Tie Wing Depth
Ligation is made simple

Archwire Slot Design
Resists deformation and less friction for superior sliding mechanics

Dovetail Bonding Base
Provides superior mechanical bond strength and predictable de-bonding

Compound Contour Base
Provides simplified and accurate bracket placement

Highest Quality Material
Robust polyurethane composite for ultimate stability

The Evolve family of products is fast becoming the system of choice for Orthodontists in the UK and Internationally.

All Brackets, Buccal tubes and Pre-welded Bands are available in .018 and .022 Roth* and MBT*

---

"Evolve brackets provide a reliable, comfortable base with variations to accommodate my tailored mechanics. The hooks in the buccal segments sit nicely to allow our patients to consistently place intermaxillary elastics without causing irritation or the inconvenience of needing to place additional auxillaries."

Richard Gibson, Specialist Orthodontist, Wallasey Orthodontics

**Did you know our EuroLine™ archwires ARE NOW AVAILABLE IN SINGLE PACKAGING?**

Exclusively from DB Orthodontics, Therma is our innovative low force thermal NiTi archwire, featuring a unique alloy processing technique which offers true advantages over conventional archwires.

- Allows for engagement of a larger rectangular wire earlier in treatment.
- Austenitic at approximately 27-32°C with consistent results.
- May preclude the use of smaller round or stranded rectangular wires.
- Available in Euroline™ or Damon archforms.
- .014” ideal for light aligning especially in crowded cases.
- Sold in packs of 10.

Interproximal Reduction System for all orthodontic treatment

An innovative Interproximal Reduction system that makes interproximal enamel removal/stripping safer and more accurate without creating sharp corners or subgingival ledges.

Designed for use with all orthodontic treatments, these strips curve and flex along the natural contours of the teeth to avoid cutting lips and gums, to prevent excessive enamel removal and to maximise patient comfort.

- Single-handed, ergonomic design reduces hand fatigue
- Will not cut lips or gums and eliminates gagging
- Avoid creating sharp corners or subgingival ledges
- Effective for anterior teeth and easy access to posterior areas
- User and patient friendly
- Autoclavable up to 140°C (steam heat only)

Intro Pack DB05-0908 Contains 1 of each colour below:

Autograph at a glance.

- Designed exclusively for orthodontists.
- Predictable clinical outcomes.
- Manufactured in the UK by GDC registered dental technicians.
- Quick turnaround.
- Easily accessible customer support.
- Attachments now available.
- Complementary video animation of proposed treatment plan.

“I use the weekly Autograph aligner system because it achieves consistently good results. The customer service is excellent and the turnaround times are swift - I know I’m in good hands with the Autograph team.”

- Richard Cousley, Consultant Orthodontist

Ask for your Clinicians pack today to find out how you can be an Autograph Clinician.

KEEP THAT SIGNATURE SMILE WITH THE MAINTAIN ORTHODONTIC RETAINER

Experience a transfer jig which offers freedom of both hands and a clear field of view. Conveniently fit during de-bond appointments; you’ll need less chair side time and fewer appointments. Give patients the fixed support of a high quality bonded retainer and the additional reinforcement of a removable retainer. Enjoy the peace of mind that comes with having an extra retainer, just in case you need it.

Lingual Retainer Single £80.00
Lingual Retainer Dual Arch £150.00

“Dual retention is a desired approach for retention following active orthodontic treatment. Maintain performs both roles and allows easy placement of the bonded retainer.”

David Waring - Consultant Orthodontist and Creator of Maintain

I would certainly recommend this course to any clinician looking to enhance their experience in placing mini-implants... Dr. Cousley has opened my imagination to the versatility of mini-implants with its use in a range of clinical situations.

Ivan Gill, Orthodontic specialty registrar at Barts and the London/Southend University Hospital.

Discover modern bone anchorage with Infinitas Implants.

Gain hands on experience and the theoretical knowledge behind the innovative Infinitas anchorage system on this one day course, developed and taught by Consultant Orthodontist and implant expert Richard Cousley.

Course Objectives:
- Critically appraise literature evidence on mini implant techniques
- Explain benefits and clinical usage of the Infinitas Mini Implant system
- Practical in vitro teaching on the use of the Infinitas system
- Provide the latest clinical research on new treatment modalities
- Detailed appraisal of treatment planning and biomechanics involved in palatal usage
- Advanced mini implant uses e.g. indirect anchorage, molar intrusion, molar distalisation and orthognathic applications
