

BRACELET SIZE GUIDE

HOW TO DETERMINE YOUR BRACELET SIZE

NIVES uses two different sizes for bracelets:

Stiff bracelets, like bangles or cuffs are sized using the inner diameter or circumference of the bracelet.

Chains and chain like bracelets are sized using the length of the bracelet in inch or centimeters (straightened bracelet measured including the clasp and the last stone).

BRACELET MEASURING TIPS

Make sure your hands and arms are at a normal body temperature. Hands and wrist may expand when hot or one has moved a lot.

Before ordering a bracelet verify the correct chain length or diameter by measuring the width or circumference of your wrist or hand.

To find a correct size, measure the width of your wrist or the circumference of the wrist and compare it with the size guideline of our bracelets. For bangles measure the hand circumference.

The best place for taking the measurement is where the wrist/respectively hand is the widest. The bracelet circumference/diameter should be a bit bigger than the width of the wrist/hand or exact circumference, so that the bracelet or bangle will not press the wrist when the hand moves.

You can measure your size by different methods, like e.g. with a well fitting bracelet you already own, a measuring tape, with our measuring guide or with a non stretchy ribbon.

OPTION 1

MEASURE CURRENT BRACELET

STEP 1: Select a bracelet that properly fits.

STEP 2: Measure the bracelet from clasp to end with a ruler or measuring tape and compare it to the NIVES bracelet size chart below.

STEP 3: If the bracelet falls between two sizes, order the larger size.

If you need a different size please contact us at customercare@nives.com.

OPTION 2

USE A RIBBON

If you have measured your wrist with a ribbon, or know the circumference in inch or millimeters, use the following chart to convert the length to a bracelet size.

If in doubt, move up to the next larger half size.

Avoid using elastic string or stretchy paper to measure bracelet size as these materials can stretch or twist, yielding an inaccurate measurement.

If you need help on that, please refer to our customer care at customercare@nives.com

NIVES BRACELET STANDARD SIZE

NIVES bracelets come in a standard size which falls between NIVES size X-SMALL and MEDIUM. The standard bracelet has three different rings on the end for closing the bracelet at three different lengths (measurements to be seen in the list below).

If you need a different size please contact us at customercare@nives.com.

WOMEN BRACELET SIZE

ACTUAL WRIST MEASUREMENT		TIGHT FIT		EXACT FIT		LOOSE FIT		BRACELET SIZE
INCH	CM	INCH	CM	INCH	CM	INCH	CM	
5.90	15	6.10	15.5	6.29	16	6.69	17	X-SMALL
6.29	16	6.54	16.5	6.69	17	7.08	18	X-SMALL
6.69	17	6.89	17.5	7.08	18	7.48	19	SMALL
7.08	18	7.28	18.5	7.48	19	7.87	20	MEDIUM
7.48	19	7.67	19.5	7.87	20	8.26	21	LARGE
7.87	20	8.07	20.5	8.26	21	8.66	22	X-LARGE
8.26	21	8.46	21.5	8.66	22	9.05	23	2X-LARGE

OPTION 3

USE THE SIZE GUIDE TO MEASURE YOUR BRACELET SIZE

You can also use our bracelet measuring guide attached.

We attached a cut out measuring guide in order to make it easier for you to select the right bracelet size.

Please make sure your printer is set up right and the sizes are shown properly.

STEP 1: Cut out the measuring guide on the next side.

STEP 2: After cutting out the guide, cut a slit on the measuring guide where it indicates "CUT HERE". Insert the pointed end through the opening you have cut at the end of the measuring guide.

STEP 3: Wrap the measuring guide around your wrist or hand. Start by placing the flat end of the strip just below the wrist, where you would normally wear the bracelet and wrap the arrow end around until the fit is tight. Same method applies for measuring the hand. Measure the widest point of your hand thus the bangle will fit over it.

STEP 4: Once wrapped, the number closest to the arrow point is your wrist circumference or tight bracelet size. Add a centimeter/ or 0.39 inch to the measurement, since a correctly sized bracelet leaves some space for the wrist without sticking to the skin. Same is true for the hand measurement. If in doubt, move up to the next larger half size. Choose bracelet size also according to your wearing preferences, but please keep it mind that it can hurt you when sitting too tight and also the bracelet can break if there is too much pressure on the chain while wearing it. Also do not wear it too loose since it can easily get caught when hanging too loose or it can even fall off from the hand.

PRINTING SET UP FOR MEASURING GUIDE

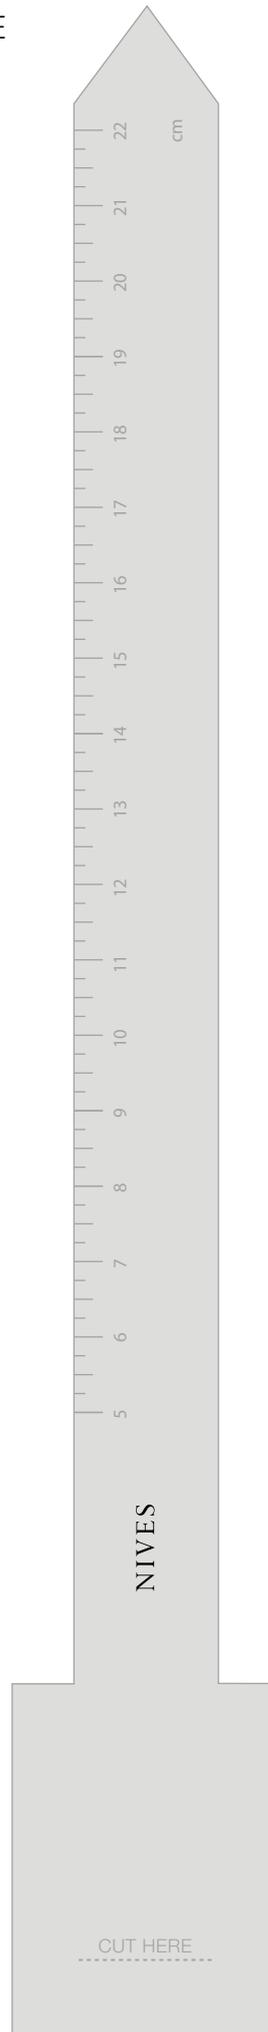

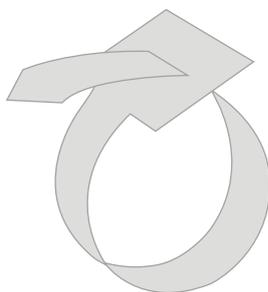

- Please, measure the bar at the left to make sure your print out is correctly sized.

- If the bar does not measure exactly 3 cm, check that page scaling is set to "none" on your print out dialog box, and that you are printing at full size.

BRACELET MEASURING GUIDE

Please note that the NIVES measuring guide is an indicative guide only and therefore may not be an exact measure.

BRACELET FIT

The fit of a bracelet will vary between each individual.

For delicate bracelets with a thin chain we recommend a tight or exact fit. The other bracelet styles should have a comfort fit except when buying large or thick cuffs or bangles. For bangles it is better to wear them in loose fit so it does not feel it is suffocating the wrist.

Some of NIVES's bracelets have a clasp that can be attached to any of the three rings on the chain. With these bracelets the size can be easily adjusted and measuring the correct size is not that important as long as the chain length is sufficient.

FITTING STYLE	
ADD INCH/ CM TO WRIST SIZE	
TIGHT FIT:	add 0.19 to 0.39 inch / ca. 0.5 bis 1 cm
COMFORT FIT:	add 0.39 to 0.59 inch / ca. 1 bis 1.5 cm
LOOSE FIT:	add 0.59 to 0.78 inch / ca. 1.5 - 2 cm

NIVES STANDARD BRACELET CLOSURE

NIVES standard bracelets should fit well for sizes from X-SMALL to MEDIUM.

Please be aware when wearing it in the first ring (size 6.29 inch/16cm) the part with the other rings and the last diamond will hang down. If you do not like that effect always order the size, thus the clasp is attached in the first or second ring so the effect becomes less visible. In case our standard size bracelet does not fit you or you would like it to be more loose and comfortable, just get in contact with us at customercare@nives.com.

NIVES BRACELET WEARABLE LENGTHS:	
MAX. OVERALL LENGTH:	7.28" / ca. 18.5 cm
WEARABLE LENGTH ONE:	ca. 6.29" / 16 cm
WEARABLE LENGTH TWO:	ca. 6.69" / 17 cm
WEARABLE LENGTH THREE:	ca. 7.08" / 18 cm

All NIVES items are hand made and there can be slight variations from these measurements. They are seen as a reference for better wearing comfort.

TO DETERMINE THE BANGLE SIZE

If you have measured your wrist with a ribbon, or know the circumference in inch or millimeters, use the following chart to convert the length to a bracelet size.

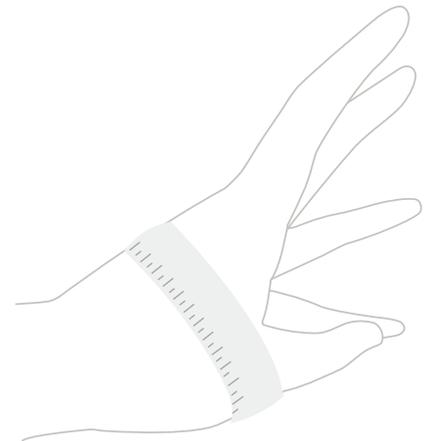

If in doubt, move up to the next larger half size.

Avoid using elastic string or stretchy paper to measure bracelet size as these materials can stretch or twist, yielding an inaccurate measurement.

If you need help on that, please refer to our customer care at customercare@nives.com.

STEP 1: Close your fingers together and bring your thumb to your little finger (as pictured). Pretend that you were putting on a bangle.

STEP 2: Using our measuring guide or measurement tape or a non stretchy ribbon and wrap it around your hand at the widest point. If you are using a ribbon, mark your size with a pen on the crossing point. Then measure the ribbon with a ruler or measuring tape. The length you receive would be the circumference of your hand.

STEP 3: Compare your hand circumference to the chart below. Purchase a bangle with diameter that is the next size up from your actual hand measurement.

WOMEN BANGLE SIZE

DIAMETER		CIRCUMFERENCE		BANGLE SIZE
INCH	CM	INCH	CM	
2.25	5.72	7.06	17.93	SMALL
2.375	6.03	7.46	18.95	MEDIUM
2.5	6.35	7.85	19.94	LARGE
2.75	6.96	8.63	21.94	X-LARGE

All NIVES items are hand made and there can be slight variations from these measurements. They are seen as a reference for better wearing comfort.

TIPS FOR BUYING A BRACELET AS A SURPRISE

Ask your significant other's friends or mother, father, son, daughter or friend if they know her/his bracelet or wrist size. Borrow one of your significant other's bracelets or bangles (a well fitting one) and use the bracelet measurements above to determine its size.

In case you would like to give a NIVES bracelet or other NIVES item as gift for a child and thus need a smaller size, you are welcome to get in contact with us. We are happy to help you with this special order, please write to customercare@nives.com.
