

NECKLACE SIZE GUIDE

HOW TO DETERMINE YOUR NECKLACE SIZE

The optimal necklace size depends on your personal style as well on your preferred style, or on the look you would like to wear.

You can wear your necklaces long, tight on your neck or several necklaces layered over another.

This guideline is made in order to help you choose the right length for your look or purpose.

NECKLACE MEASURING TIPS

The position of the necklace is determined by your personal measurements. That means that the position of the necklace on your body will vary according to your height, weight or neck width.

Therefore we created three different graphics which should help you estimating how the necklace in a certain length will lay on your body.

For example:

On a very tall person a necklace length of 32"/ 81.3 cm will end just under her breast, while for a shorter person the same necklace will end almost at her navel and for a person with a larger breast circumference the necklace will be shorter.

Same is true for a person with a bit more weight. A necklace of 14"/35.4 cm might be too tight on her neck or it will just not look so favorable while for a very tiny and skinny person it might be the perfect necklace to wear layered with other necklaces.

The guideline helps to select the right size for your preferred style. It can also be used in order to buy different necklace sizes for layering the necklaces.

There are different ways to measure your preferred personal necklace size.

OPTION 1

MEASURE CURRENT NECKLACES

STEP 1: Select a necklace that properly fits at the preferred position.

STEP 2: Measure its length with a ruler or a measuring tape and compare it with our size graphics.

STEP 3: If the necklace size falls between two sizes, always consider the larger size or get in contact with us for custom made sizing.

If you need help, please refer to our customer care at customercare@nives.com.

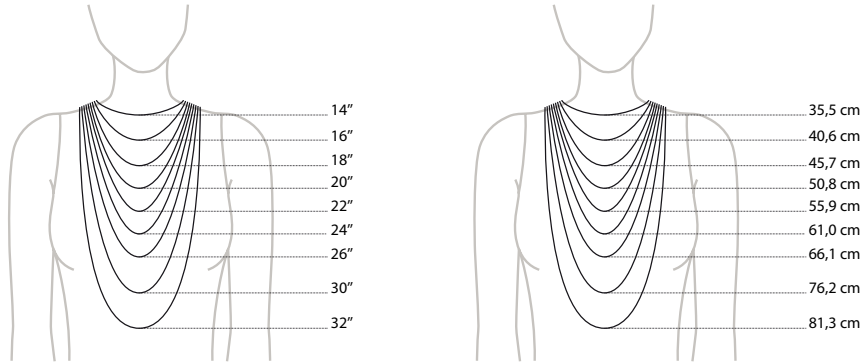

WOMEN NECKLACE SIZE

INCH	CM	NECKLACE
14.00	35.5	1
16.00	40.6	2
18.00	45.7	3
20.00	50.8	4
22.00	55.9	5
24.00	61.0	6
26.00	66.0	7
30.00	76.2	8
32.00	81.3	9
36.00	91.5	10

All NIVES items are hand made and there can be slight variations from these measurements.

PERSONS WITH MORE WEIGHT

OPTION 2

USE A RIBBON

STEP 1: Take a non elastic string or non stretchy ribbon and lay it around your neck at the preferred length until the ends match. (Please be careful with the ribbon around your neck!).

STEP 2: Measure the length of the ribbon or string with a ruler or a measuring tape and compare it with our size graphics.

STEP 3: If the necklace size falls between two sizes, always consider the larger size or get in contact with us for custom made sizing.

IMPORTANT: Please measure twice for accuracy. Measurements must be exact.
(Please do not add allowances)

Avoid using elastic string or stretchy paper to measure ring size as these materials can stretch or twist, yielding an inaccurate measurement.

If you need help, please refer to our customer care at customercare@nives.com.

TIPS FOR BUYING THE NECKLACE AS A SURPRISE

Ask your significant other's friends or mother, father, son, daughter if they know her/his necklace size or borrow one of your significant other's necklace (one that fits nicely) and use the necklace measurements above to determine its size.

In case our standard necklace sizes do not fit you or you would like to have a different length, just get in contact with us at customercare@nives.com.
