*A wise traveler roamed the lands in search of sights that would captivate all who beheld them. His journeys took him far and wide until he had explored every corner of the realm. One day, he stumbled upon a quaint village where every inhabitant wore a smile and sang with joy. Intrigued, he approached a local and inquired, "I've traveled far and wide, but I've never encountered such widespread happiness. Why is everyone here so cheerful?" The villager replied, "Observe closely, and you'll understand. We've learned to cherish each moment and find beauty in the ordinary." As the traveler gazed around, he was struck by a sense of timelessness. He realized that amidst his wanderings, he had often overlooked the simple yet enduring wonders that surrounded him—the classics of life. At Walloro, we revel in the diversity of patterns. While we eagerly explore like intrepid travelers, we also value the return to tranquility and classicism. The Traveler collection embodies this sentiment perfectly. Offering timeless patterns and colors that withstand the test of time, Traveler invites you to embark on a journey of exploration and discover serenity in stillness.*

# NINE

NON-WOVEN BACK  
41.7 inches X 614 inches

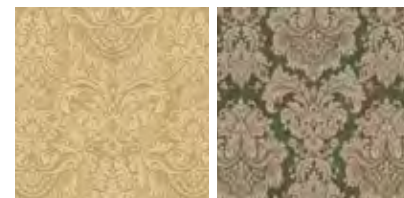

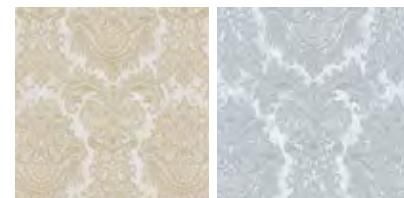

*The number nine holds profound significance across various cultures and historical contexts, often revered for its symbolism of completeness, perfection, and spiritual enlightenment. In mathematics, nine is the highest single-digit number and is associated with mathematical principles like multiplication, as any number multiplied by nine will ultimately reduce back to nine. In ancient civilizations such as the Egyptians and Greeks, nine was linked to celestial realms, representing the nine muses, the nine planets (in traditional astrology), and the nine realms of the Norse cosmology. Furthermore, many religions and spiritual traditions find significance in the number nine, such as in Christianity, where it symbolizes divine completeness and the fruits of the Holy Spirit. Additionally, in Chinese culture, the number nine is considered extremely auspicious, representing longevity and eternity. Its significance in diverse contexts underscores the universal importance and enduring appeal of the number nine throughout human history. Walloro aims to highlight the multifaceted meanings of wallpapers and patterns with its ninth catalog, aptly named "Nine," demonstrating that nine is far more than just a number.*

*The interpretation of 'less is more' by Ludwig Mies van der Rohe, which has gained popularity and continues to be embraced worldwide, was a key inspiration for us during the creation process of the Delta collection. His words convey the idea that simplicity, when stripped of unnecessary embellishments, can exude a stronger impact than elaborate designs. While this notion may initially seem assertive, we invite you to reconsider after experiencing our new 'Delta' collection! This collection, which pushes the boundaries of minimalist design, serves as a testament to the powerful simplicity of modern art and the sophisticated elegance it embodies. 'Delta' is the second volume of the Gamma collection series, solidifying Walloro's position at the forefront of design innovation by offering a truly exceptional series.*

## APPLICATION INSTRUCTION

### INSPECTION

Before applying the glue, ensure to check the order, color, and pattern of the product, if available. Place the product on a surface to inspect for any defects. If your acoustic wallpaper features a pattern (rather than a solid color), verify that the pattern in each part aligns with the corresponding part before beginning the application process.

### APPLICATION

1. Here's the revised version:
2. Ensure that the wall surface to be covered is clean and smooth.
3. Apply wallpaper glue evenly to the back of the Acoustic Wallpaper using a brush. Avoid folding the glued Acoustic Wallpaper.
4. The glued Acoustic Wallpaper must be applied within 10-20 minutes.
5. When pasting, ensure that the first section is level and smooth. If using a spatula or trowel, be careful not to damage the wallpaper surface. Gentle use of tools such as a trowel, spatula, or roller is essential to avoid damaging the product.
6. Throughout the application process, prevent glue from seeping onto the surface of the acoustic wallpaper.
7. Apply the first section to the wall and then place the second section next to it. If the product features a pattern, match the patterns and continue with the application.
8. Remove any adhesive stains from the product's surface using a dry sponge.

### RECOMMENDATIONS FOR APPLYING THE PRODUCT IN LIVING SPACES

1. Applying acoustic wallpapers on opposite walls will increase the acoustic efficiency of the room.
2. Glass products in the room (such as windows) may disrupt the acoustics of the space.
3. In the places where you apply acoustic wallpaper, pay attention to closing the curtains of the windows.
4. You can also apply our acoustic wallpaper to the ceiling of your room. For a professional acoustic environment, applying the product to all four walls and the ceiling creates the most efficient acoustic environment.
