## PVC Cove Former:

PVC cove formers are used to form a cove where floor coverings rise up to the wall. Usually used with a capping seal or a cap to cover the raw edge of the floor covering. They also provide perfect hygiene and water tightness thanks to the fact they create smooth angle under flooring. Our PVC Cove Formers are compatible with Homogeneous flooring.

## Key Features:

- 1- Easy to clean and maintain
- 2- Easy to install
- 3- Anti Bacterial and Anti Fungal
- 4- Black Color
