THE SOLUTION TO YOUR SPACES

## PVC FLOORING & WALL PANELS

THE SOLUTION

To

YOUR

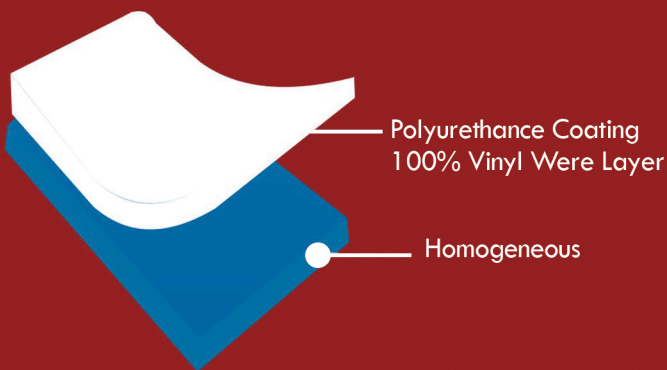

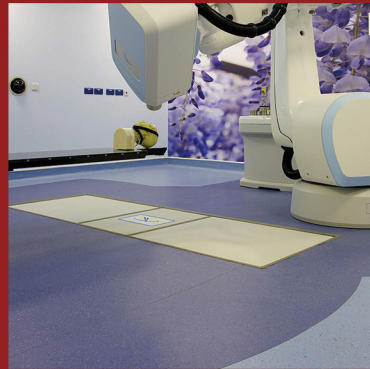

SPACES

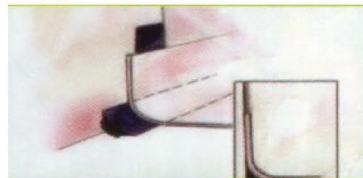

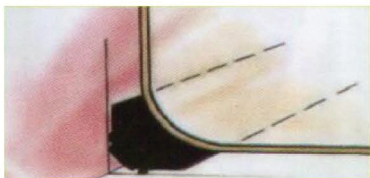

# VINYL HEALTHCARE FLOORING

With a reputed experience of over 20 years in homogeneous flooring for healthcare practitioners, Marflex is setting the benchmark for hygiene and performance standards.

MarFlex provides an alternative flooring solution to HealthCare sector with a cost saving of at least 30% compared to epoxy flooring per year.

Polyflor flooring is the ideal fit to healthcare flooring needs. Attractive, high performance PVC homogeneous floor covering. UV cured to prove a low-cost, polish-free maintenance regime for the lifetime of the flooring. Polyflor provides an acute array of flooring solutions to fit all healthcare flooring needs.

## POLYCLAD

Polyclad is a tough, durable and flexible vinyl wall and ceiling cladding featuring the protection of a polyurethane surface treatment.

# NO WAX NO POLISH FOR LIFE

- Usage Areas**
- Wards and Rooms
  - Reception Areas
  - Out-Patient Department
  - Corridors
  - Rehabilitation Centers
  - Laboratories
  - Sterile Areas

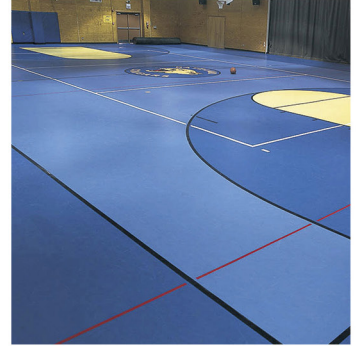

# VINYL SPORTS FLOORING

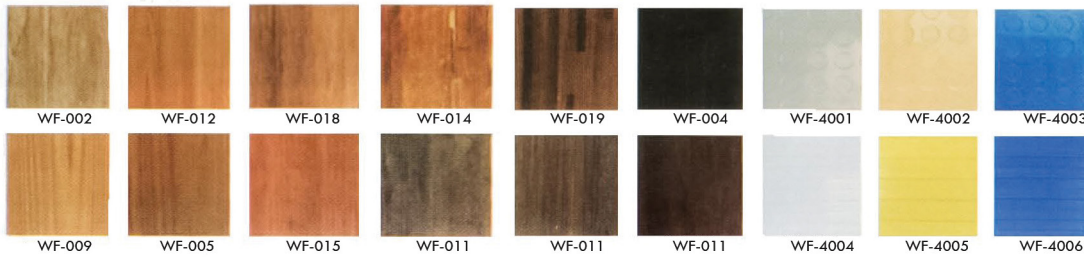

## Special Rubber Underlays for Sports Floors

Marflex is making special rubber underlay in various thickness (depending on client particular need) from 3mm to 10mm for special needs of sports areas. By using these underlays of rubber, flooring becomes soft and pressure on human knees is reduced hence less stress for the player. It tremendously reduces injuries when falling compared to wood.

**Usage Areas:** Basketball Courts      Gymnasiums      Fitness Areas  
 Badminton Courts      Multi-Purpose Sports  
 Table Tennis Courts

### COLOR RANGE

**FREEDOM TO  
 RUN, JUMP  
 TURN & TWIST**

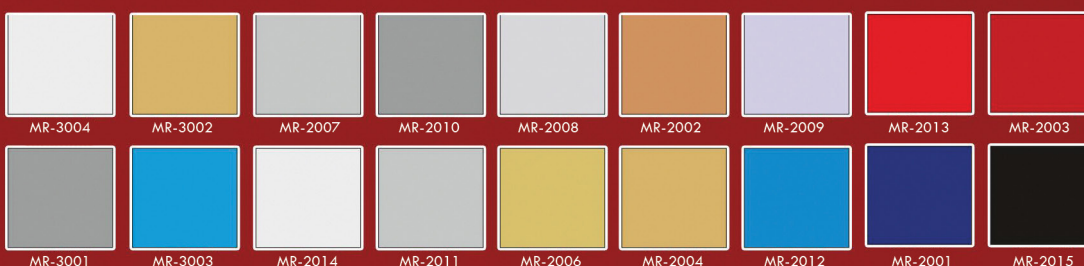

# ANTI-STATIC ESD FLOORING

Vinyl tiles that contain encapsulated conductive elements of the carbon family are distributed throughout the tiles to prevent uncontrolled static charge from damaging the work environment. MarFlex Anti-Static ESD Flooring keeps static charge away from people and equipment to increase personal comfort, safety, prevent equipment damage and give you a complete peace of mind.

**Usage Areas:** ICU'S      Electronic Industries      Operation Theatre  
 Radar Rooms      Computer Labs      Call Centres  
 Telecommunication Installations

### COLOR RANGE

**SAFE &  
 SECURED  
 ALL AROUND**

# WALL PANELS

PVC wall panels are functional as well as decorative, providing insulation and soundproofing, combined with uniformity of appearance, along with some measure of durability or ease of maintenance. Use of wall panels can reduce construction costs by providing a consistent appearance to the paneled surface without requiring the application of paint or another finishing material.

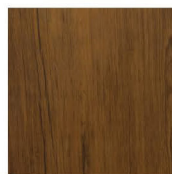

## DURABLE LIGHTWEIGHT AND EASY TO INSTALL

Usage Areas: Residential, Commercial and Industrial

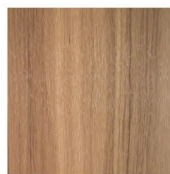

### COLOR RANGE

#### Benefits

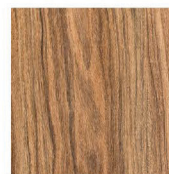

- All-round and All-area Product
- Easy and Fast to install
- Strong and Lightweight
- Low maintenance
- Water Resistant
- Effective
- Durable
