

Part number: 0093250

Kit Contents

- 1 Calibration chamber and sponge wafers (for RDO Sensor calibration)
- 2 Silicone lubricant (for O-rings)
- 3 Lens cloth (for RDO Sensor lens)
- 4 Foam cleaning swabs (for conductivity sensor)
- 5 pH sensor plug (for storage, not deployment)
- 6 Replacement O-rings (See back page for installation.)

O-ring Installation Locations

Apply a very thin layer of silicone-based lubricant on the O-rings prior to installation.
