> Use of the size table for rings

1) Choose one of your rings **(preferably wide)** that you like to wear.

2) Place this ring on the following turquoise circles.

3) Find the size that fits best by looking for **the round whose outer perimeter** is as close as possible to **the inner perimeter of your ring.**

4) If your ring is between two sizes, as mood rings are wide rings, we advise you to choose the larger size.
