

Linda Williams - It's A Wrap - Pretty Pocket Assembly and Inspiration Sheet

Select your chosen design for your Pretty Pocket and use the same one on all four flaps (A). Emboss the Pretty Pocket on the Groovi Plate. Do any other embossing or colouring you wish and then picot cut or cut out with scissors or a craft knife around the outer edges. Fold the tabs inwards starting at Fold Line 1 (B), overlapping the tabs as you go along (C,D). When you get to Fold 4, which is the final fold, this tab will lie on top of the last tab and you can tuck it under the first tab if you so wish (E). The tabs will then become interlinked. Of course you don't have to do it this way, the choice is yours. Leave the tabs loose if you like or make a little envelope by sticking three tabs together and leaving the top flap just folded over on top (F).

The borders are designed so that they will fit exactly around the outside of the Pretty Pocket. You can put this on a separate layer and frame your Pocket perfectly (F,G).
