

Fabric Care & Maintenance Instructions

Cleaning Supplies Needed:

- Dish soap
- Hydrogen peroxide (in a dark bottle with a spray top)
- Microfiber cloths
- Optional: Steam cleaner

Cleaning Instructions:

- Fill a large bowl with hot water and a few drops of dish soap.
- Wet a microfiber cloth with the soapy water and scrub the entire area to be cleaned, ensuring it is constantly wet.
- Spray heavily soiled areas or stains with hydrogen peroxide and let it sit for at least 10 minutes. Always spot check on the fabric first.
- Use a steam cleaner, if available, to clean the fabric. Use a scrub brush for heavily soiled areas and microfiber cloths for delicate fabrics.
- If no steam cleaner is available, scrub the chair with the microfiber cloth and water/dish soap mixture, and use hydrogen peroxide for stubborn stains.

- Let the chair dry completely.

Maintenance Tips:

- Apply a stain guard treatment to keep chairs looking new and make future cleaning easier.

Optional Cleaning Enhancements:

- Using a steam cleaner can effectively loosen and dissolve dirt, grease, and grime, and kill 99.9% of germs and bacteria without chemicals.
- These steps will help keep your fabric dining chairs clean and well-maintained.
